## **3-UNITS PATTERN: SYTEMATIC GUIDE TO CONSTRUCT TAGALOG SENTENCE**

For Beginner Adult Learner

VOLUME 1 : PATTERN NO. 2

# **3-UNITS**

## **PATTERN**

## **STARTING GUIDE**

To Construct Tagalog Sentence

**Mabel De Leon**

# Guide to use this ebook

Before you start using this book, answering "Knowledge Check" is only optional but I highly recommend to answer it and download the "Pattern Sheets" provided with this ebook intended for specific lessons indicated for better comprehension of learning basic Tagalog language.

Step by step guide before using this ebook:

1. Download pattern sheets intended for lessons 3,5 and 6.
2. While reading lessons 3,5 and 6, you can refer to pattern sheets for better visual overview.
3. I highly recommend to complete the " Knowledge Check" exercises for better understanding of the lessons. Please see table of contents for the Answer Keys.

For more questions, comments and suggestions

Feel free to message us at the following site and pages:

<http://www.tagalohub.com>

<https://www.facebook.com/tagalohub/>

<https://www.instagram.com/tagalohub>

# Introduction

Before learning how to construct Tagalog sentences, it is also important to know,

What makes Tagalog Language complex?

There are many reasons a Non-Tagalog speaker may get confused in learning the language but I will only be focusing on the Construction of Tagalog sentences: beginning phrase pattern in this book.

**Tagalog has different sentence structures that have the same meaning. But in this book, we will only focus in learning one sentence structure and three (3) units pattern.**

*The following example is not yet a complete sentence. It's only a phrase but we will start with three units pattern.*

In Tagalog, the **word order does not matter** as long as you put proper particles/articles/linking verb. I categorize it into patterns. All the words that are highlighted blue are the particles/linking verb/article used in that particular pattern.

## Pattern #1

Si Ben **ay** nanonood **ng** balita.

*Ben is watching the news.*

## Pattern #2

Nanonood **si** Ben **ng** balita.

Pinanonood **ni** Ben **ang** balita

*Ben is watching the news.*

## Pattern #3

Balita **ang** pinanonood **ni** Ben.

*The news is being watched by Ben.*

Now, let's analyze each pattern. We will split each pattern into its components and identify them.

### Pattern #1: This is a Subject Focus Pattern

In this pattern, the Subject is the first unit followed by Verb and object

**Si Ben ay nanonood ng balita.**

**Topic** here is **Ben** which is the **subject**

**Verb** here is **nanonood** which is the **determiner of the focus and determiner of the tenses.**

The **form of the verb** used here is a **Subject focus verb**

**si** is the **name marker**. This is one of the many particles we use in Tagalog sentences and this kind of particle does not exist in English language. Also, this particle is used for a subject focus sentence.

**ay** functions as a **topic marker** here. This particle indicates the topic of the sentence.

**ng** functions as a **direct object marker** here. This is also one of the many particles we use in Tagalog sentences.

**balita** is the **object** in this pattern

### Pattern #2: These pattern have 2 sentence focus

In this pattern, Verb is the first unit followed by subject and object

Subject Focus:

**Nanonood si Ben ng balita.**

**Topic** here is **Ben** which is the **subject**

**Verb** here is **nanonood** which is the **determiner of the focus and determiner of the tenses.**

The **form of the verb** used here is a **Subject focus verb**

**si** is the **name marker**. This is one of the many particles we use in Tagalog sentences and this kind of particle does not exist in English language. Also, this particle is used for a **subject focus sentence.**

**ng** functions as a **direct object marker** here. This is also one of the many particles we use in Tagalog sentences.

**balita** is the **direct object**

Object Focus:

**Pinanonood ni Ben ang balita.**

**Topic** here is **balita** which is the **object**

**Verb** here is **pinanonood** which is the **determiner of the focus and determiner of the tenses.**

The **form of the verb** used here is a **Object focus verb**

**ni** is the **name marker**. This is one of the many particles we use in Tagalog sentences and this kind of particle does not exist in English language. Also, this particle is used for an **object focus sentence.**

**ang** functions as a **direct object marker** here. This is also one of the many particles we use in Tagalog sentences.

**Ben** is the **subject** in this pattern and unlike in the previous pattern. This is not the topic of the phrase.

### Pattern #3 This is an Object Focus Pattern

In this pattern, Object is the first unit followed by Verb and Subject.

Object Focus:

**Balita ang pinanonood ni Ben.**

**Topic** here is **Balita** which is the **object**

**Verb** here is **pinanonood** which is the **determiner of the focus and determiner of the tenses.**

The **form of the verb** used here is an **Object** focus verb

**ni** is the **name marker**. This is one of the many particles we use in Tagalog and this kind of particle does not exist in English language. Also, this particle is used in an **object focus** sentence.

**ang** functions as a **direct object marker** here. This is also one of the many particles we use in Tagalog.

**Ben** is the **subject** in this pattern and just like in the previous pattern. This is not the topic of the phrase.

And compare to the verb of Pattern #1 and Pattern #2 which is Subject Focus Sentence "**nanonood**",

Pattern #3 has the same form of the verb with Pattern #2 Object Focus Sentence "**pinanonood**"

Each pattern has it's own sets of particles and articles used.

#### **Pattern# 1 uses**

topic marker "**ay**" and Particle "**ng**" marker

#### **Pattern#2 uses**

Particle "**si**" marker and Particle "**ng**" marker

Particle "**ni**" and Particle "**ang**" marker

#### **Pattern#3 uses**

Article "**ang**" and Particle "**ni**" marker

That is why it is very important to choose first what pattern you want to learn.

If you want to learn formal way of writing and speaking Tagalog. I highly recommend for you to learn pattern #1

If you want to learn informal way of writing and speaking Tagalog. I highly recommend for you to learn pattern #2, which is commonly used by most Tagalog native speakers.

Pattern # 3 is also informal and used by Tagalog native speakers in cases of emphasizing the object.

Therefore, if you want to learn Tagalog language at a conversational level, I highly recommend to learn pattern #2 first, then learn pattern #3.

Pattern #1 is commonly used by Tagalog native speakers when introducing themselves.

For Example: **Ako si Ben at nakatira ako sa Maynila.**

which means *I am Ben and I live in Manila.*

And during "**formal style of speech**" of "Tagalog speakers that normally uses in political and school activities with Tagalog language as a theme". (*In my online course Tagalog 1, I discussed there the different speech styles of native Tagalog speakers.*)

On the other hand, as you will have noticed by now, **word order** in Tagalog sentences **does not matter**,

You can start your sentence with:

Verb + Subject + Object

or

Subject + Verb + Object

or

Object + Verb + Subject

And you can use any of them as long as you put the right particle since it produces the same meaning which only has different focuses in Tagalog.

I hope this book will help a lot in your journey learning Tagalog language!

Let me share with you this quote I read somewhere.

**"The expert in anything was once a beginner."**

Enjoy Learning!

Kaya mo yan, (You can do it)

Coach Mabel

# Lesson 1

## Uses of Particle "si" and "ni"

Before we begin in this lesson, I would like to explain a little bit about the forms of the verbs used in this pattern.

In Tagalog, Verbs determine the tenses in the sentence.  
Conjugation of Verbs in Tagalog is based on the tense of the verbs.

There are 2 types of sentence focus in Tagalog

1. **Subject** Focus
2. **Object** Focus

Each focus has its own set of verb conjugations. This is confusing on the part of most Non-Tagalog speakers, but there is a simple way to learn this in correct pattern.

Please check Lesson 7 for better understanding about the Verbs used in this Pattern. Also, please check Pattern Sheets for better illustrations on how we use proper verb tenses connected to the pronoun we are using.

There is more to learn in Tagalog Verb conjugation. But for now, let's take one step at a time and learn verb conjugation used for this pattern.

In this lesson, we will focus on learning the uses of Particle "si" and "ni" as a name marker. Let's start!

# Uses of Particle "si" and "ni"

In this lesson, you will learn the multiple functions of Particle "**si**" and "**ni**" which we will use in Three (3) units pattern: beginning phrase to construct Tagalog sentences.

**si**

used as a  
**name** marker

si + name of specific person  
si + role of family member

**ni**

used as a  
**name** marker

ni + name of specific person  
ni + role of family member

Please do not be confused, even though both "si" and "ni" has the same functions as a **name marker**

"**si**" uses if the **focus** of the sentence is the **subject**.  
Let me reiterate, if the sentence  
**focuses** on the **subject** as the **doer of the action**.

"**ni**" uses if the **focus** of the sentence is the **object**.  
Let me reiterate, if the sentence  
**focuses** on the **object** as the **receiver of the action**.

Please see example sentences and the figure below:

Figure

*This is Karen. If you will describe what is Karen doing in Tagalog, You will say...*

Kumakain **si Karen** ng isda.

**Karen** is eating the fish.

In this pattern, it answers the question:  
What does the **subject** is **doing**?  
It emphasize the **subject** as the **doer of the action**  
What is Karen doing?

The answer: Karen is eating the fish.  
In Tagalog, Kumakain si Karen ng isda.

Another form of describing our figure

Kinakain **ni** Karen **ang isda**.

Karen is eating **the fish**.

In this pattern, it answers the question:

What **object receives** the **action** of the **subject**?

or "What is Karen eating?"

Unlike in the previous pattern that answer to the question

"What is Karen doing?"

It emphasizes the **object** as the **receiver of the action**

Again.

What is Karen eating?

The answer: Karen is eating the fish.

In Tagalog, Kinakain ni Karen ang isda

You can use either of the pattern with

"**si**" marker and "**ni**" marker

because it produces the same meaning unless you want to emphasize either the object or subject.

# Uses of Particle "si" and "ni"

**si**

used as a  
**name** marker

**si** + name of specific person  
**si** + role of family member

**ni**

used as a  
**name** marker

**ni** + name of specific person  
**ni** + role of family member

## Other Differences between "si" and "ni"

*This is Mike holding  
a tray of medicine  
and a cup of liquid.*

Tagalog of  
**drink** is **inom**

## Root Word Verb: **inom**

**Iinom si** Mike **ng** gamot.  
*Mike will drink the medicine.*

**Iinumini ni** Mike **ang** gamot.  
*The medicine will drink by Mike.*

**Umiinom si** Mike **ng** gamot.  
*Mike drinks/is drinking the  
medicine.*

**Iniinom ni** Mike **ang** gamot.  
*Mike drinks/ is drinking the  
medicine.*

**Uminom si** Mike **ng** gamot.  
*Mike drank the medicine.*

**Ininom ni** Mike **ang** gamot.  
*Mike drank the medicine.*

**si** + name

- uses in pattern with particle "**ng**"

**ni** + name

- uses in pattern with article "**ang**"

## In "Form of the Verbs" uses in this pattern

**si** + name with particle "**ng**"

uses **prefix** conjugation in all tenses of the verb

**ni** + name with particle "**ang**"

uses **infix** conjugation "**um**" in **future** tense of the verb

uses **prefix** conjugation "**in**" in **present** and **past tense** of the verb

Root Word Verb: **aral** which means **study**

**Mag-aaral** si Mike **sa** Ingglaterra.  
*Mike will study in England.*

**Nag-aaral** si Mike **sa** Ingglaterra.  
*Mike studies/is studying in England.*

**Nag-aral** si Mike **sa** Ingglaterra.  
*Mike studied in England.*

Root Word Verb: **aral** which means **study**

**Aaralin** ni Mike **sa** bahay **ang** aralin.  
*Mike will study the lesson at home.*

**Inaaral** ni Mike **sa** bahay **ang** aralin.  
*Mike is studying the lesson at home.*

**Inaral** ni Mike **sa** bahay **ang** aralin.  
*Mike studied the lesson at home.*

### **si + name**

- uses in pattern with particle "**sa**"

### **ni + name**

- uses in pattern with particle "**sa**" and particle "**ang**"
- The sentence will sound **incomplete** without the **object**

## **In "Form of the Verbs" uses in this pattern**

### **si + name with particle "sa"**

uses **prefix conjugation** in **present** and **future** tense of the verb

uses **infix conjugation "um"** in **past** tense of the verb

### **ni + name with particle "sa" and "ang"**

uses **prefix conjugation** and **suffix "in"** conjugation in **future** tense of the verb

uses **prefix "in"** in **present** and **past** tense of the verb

For a better overview:

### **si + name**

uses in

Verb + **si**+*name of a person or family member* + **ng** + object

Verb + **si**+*name of a person or role of a person in your life* + **sa** + place

### **ni + name**

uses in

Verb + **ni**+*name of a person or family member* + **ang** + object

Verb + **ni**+*name of a person or role of a person in your life* + **sa** + place +  
**ang** + object

*Example usage of name marker when stating the role of the person in your life:*

### **si + name**

uses in

Verb + **si**+*name of a person or role of a person in your life* + **ng**+ object

Nagluluto **si nanay** ng Chicken Adobo.  
(Mother cooks/is cooking Chicken Adobo.)

### **ni + name**

uses in

Verb + **ni**+*name of a person or role of a person in your life* + **ang** + object

Niluluto ni nanay ang Chicken Adobo.  
(Mother cooks/is cooking Chicken Adobo.)

# Knowledge Check

## Lesson 1

**Direction:** Please choose the appropriate particle in the sentence.  
**si** or **ni**

**Example 1:**

Nag-aaral  Pedro **ng** wikang Tagalog.

Peter is studying Tagalog language.

**Example 2:**

Kakainin  Loti **ang** pagkain.

Loti will eat the food.

**Example 3:**

Namasyal  Alex **sa** Hongkong.

Alex took a trip to Hongkong.

1. Bibilhin  Jose **ang** kotse.

Jose will buy the car.

2. Naglaro  James **ng** basketbol.

James played basketball.

3. Pinanood  Erika **ang** pelikula.

Erica watched the movie.

4. Nakikinig  Mika **ng** musika.

Mica is listening to music.

5. Kinokopya  Joy **ang** sagot.

Joy is copying the answer.

6. Pupunta  Maria **sa** Japan.

Maria will go to Japan.

7. Kukunin  Bella **ang** plato.

Bella will get the plate.

Please proceed on  
**page 79** of this book  
for Answer Key

# Lesson 2

## Uses of Particle "ng"

Disclaimer:

Particle "ng" has multiple functions but this lesson will focus on discussing the functions of the particle "ng" marker uses in this pattern only.

There is more to learn about the particle "ng" that I will not include here, as it might make you confused and further complicate your learning experience. I want to make learning Tagalog as easy as possible for you.

If you want to study more about particle "ng" in Tagalog. I highly recommend that you watch out for my free video tutorials about the multiple functions of particle "ng" available in Tagalog Hub VIP facebook page.

Let's Start with the sound of "ng"

"ng" sounds like "rang"

but change "r" to "n"

"nang"

"ng" reads as "nang"

**ng**

*Audio for the sound of Particle "ng" is available in our VIP FB page. Thank you*

In this lesson, you will learn the multiple functions of Particle "**ng**" which we will use in **Lesson 3** for Three (3) units pattern: beginning phrase to construct sentences.

**ng**

1. used as a **preposition** "by"  
as an **actor** marker  
**ng + actor**
3. As a **direct object** marker  
Verb + Subject + **ng** + object  
**ng + object**
4. As a **time** marker  
**ng** + time/time of the day/date/month/year

### "**ng**" as a preposition **by**

"**ng**" serves as a marker of **actor** who **do/will do/did the action**.

**Actor** could be human/animals, depending on who is the doer of the action

**ng + actor**

Marker "**ng**" also uses if the **focus** of the **sentence** is the **doer** or **actor** of the sentence.

It answers the question, who do/will do/did the action?

For Example:

The leftover food was eaten by the cat

Kinain	<b>ng</b>	<b>pusa</b>	ang tirang pagkain.
which means <b>ate or eaten</b>		which means <b>cat</b>	which means <b>the leftover food</b>
Verb		actor	

In this pattern, the cat is the doer of the action "kinain" (ate/eaten).

Therefore, "pusa" (cat) is the actor of the sentence.

**ng + pusa**

It answers the question: **Who ate the leftover food?**

**Kinain ng pusa ang tirang pagkain**

# "ng" functions as a direct object marker

"ng" in this pattern functions as a **direct object marker**

**Verb + Subject + Object**

"ng" marker indicates that the **focus** of the sentence is the **object** which happen to be the **receiver of the action** in this pattern.

It answers the question: What object receives the action of the actor?

Example 1:

*This is Mary watching the news, let's say that the role of Mary in this picture is "T"*

I am watching the news.

Nanonood

which means

**watching**

**Verb**

ako

which means

**I am**

**subject**

**ng**

**balita**

which means

**the news**

**object**

In this pattern, "ng" marker indicates **object** (balita) as a **direct object** of the sentence.

**Verb + Subject + ng + object**

It answers the question: **What is the actor doing?**

**Nanonood ako ng balita**

Example 2:

He/She will read the newspaper.

Magbabasa

which means  
**will read**

Verb

siya

which means  
**He/She**

subject

**ng**

**dyaryo**

which means  
**the newspaper**

object

In this pattern, "**ng**" marker indicates **object** (dyaryo) as a direct object of the sentence.

**Verb + Subject + ng + object**

It answers the question: **What will the actor plan to do?**

**Magbabasa siya ng dyaryo.**

# "ng" as a time marker

This applies to the following time:

- **Specific time of the day**
  - **Ika-lima** (5) ng umaga (5:00 AM), **ika-siyam** (9) ng gabi (9:00 AM), etc.
- **Estimated time of the day**
  - **umaga** (morning), **tanghali/hapon** (afternoon), **gabi** (evening)

**Note:**

At the present moment, most Tagalog native speakers still use the Spanish terms when indicating time.

Example: Alas- otso ng gabi. (8 o'clock in the evening)

Alas-singko ng umaga. (5 o'clock in the morning)

"ng" marker here indicates that the **focus** of the sentence is the **specific time of the action.**

It answers the question: **What time does the action will happen?**

## Example 1: SPECIFIC TIME

Note:

**uwi** is a root word means **go home** in Tagalog language.

I will go home at 7:00 in the evening.

Uuwi	ako	ng	Alas- 7 ng gabi.
which means <b>will go</b>	which means <b>I</b>	<b>at</b>	which means <b>7:00 in the evening</b>
Verb	subject		time

In this pattern, "ng" marks the **exact time of when will the action takes place**  
"ng" in this case functions as a **time marker**  
**Verb + Subject + ng + time**

It answers the question: **When did the action took place?**

**Umuwi ako ng Alas-7 ng gabi.**

*Alas is a word which comes from Spanish language which means "ace." But in Tagalog, it is commonly used in telling specific time. Tagalog native speakers always say Alas with Spanish term numbers. Example: Alas-7 ng gabi reads as "Alas- syete ng gabi. " Syete" pronounced like the sounds in the word "Shell" with short e sounds in english.*

**SHE-TE.**

## Example 2: SPECIFIC TIME

I went home at 6:00 in the morning.

Umuwi	ako	<b>ng</b>	ika- 6 ng umaga.
which means <b>went home</b>	which means <b>I</b>	<b>at</b>	which means <b>6:00 in the morning</b>
Verb	subject		time

In this pattern, "**ng**" marks the **exact time of when did the action took place**

"**ng**" in this case functions as a **time marker**

**Verb + Subject + ng + time**

It answers the question: **When did the action took place?**

**Umuwi ako ng ika-6 ng umaga.**

*Unlike in Alas,*

*Tagalog native speakers say **ika-** with Tagalog number*

*Ika-6 is Ika-anim*

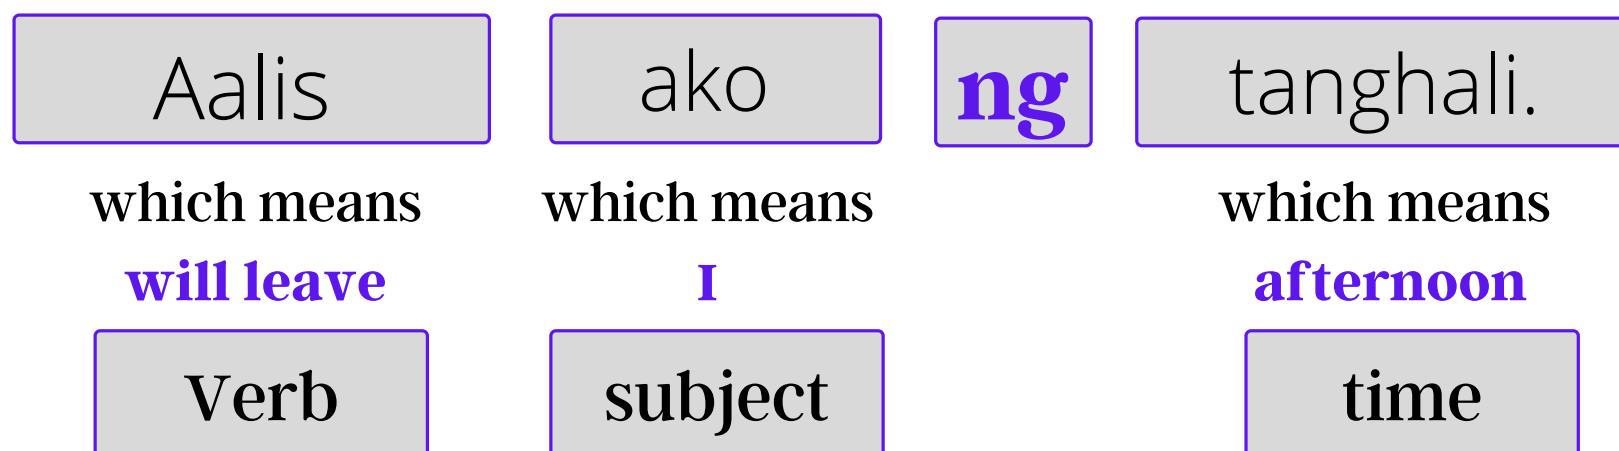

*anim is a Tagalog number "six."*

### Example 3: ESTIMATED TIME

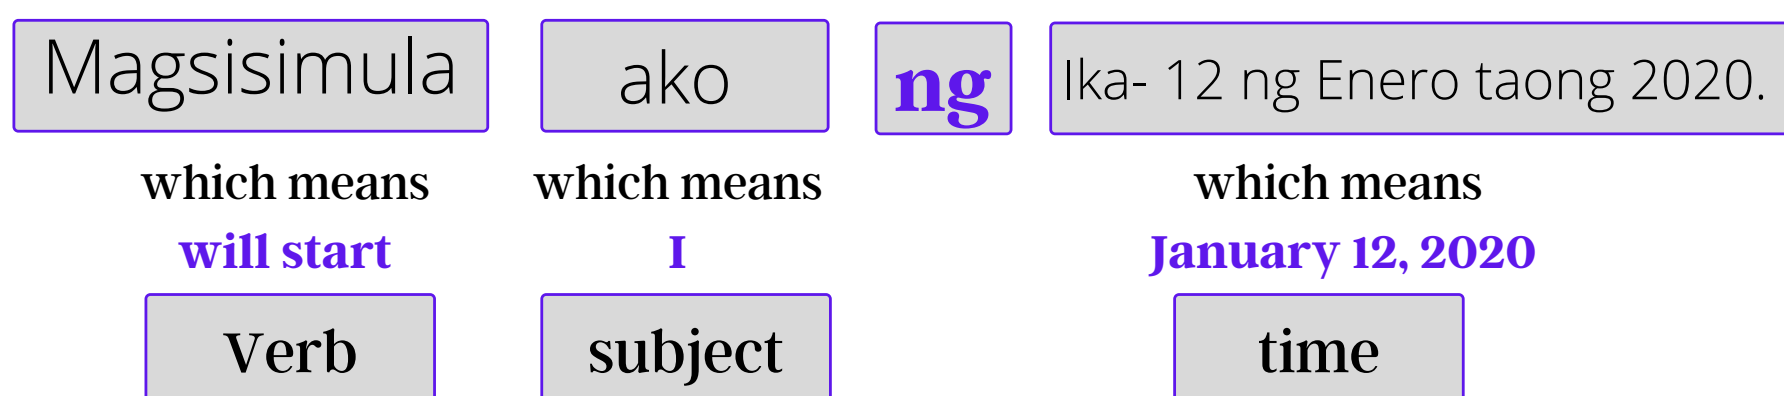

I will leave in the afternoon.

In this pattern, "ng" marks the **estimated time of the day**  
**"ng" in this case functions as a time marker.**

### Example 4: SPECIFIC DATE

I will start on January 12, 2020.

In this pattern, "ng" marks the **exact date**  
**when will the action takes place**  
**"ng" in this case functions as a time marker**  
**Verb + Subject + ng + time**

**It answers the question: When did the action took place?**

**Magsisimula ako ng ika-12 ng Enero taong 2020.**

*12 reads as labing-dalawa*

*2020 reads as dalawang libo dalawampu*

Trivia:

Most Tagalog native speakers use "Ika- ng taong" (nth of Year \_\_\_\_\_) in **formal style of speech**.

Example: Ika-16 ng Mayo taong 2020. (16 reads as labing-anim)

(16th of May Year 2020)

at a conversational level in most cases, most Tagalog native speakers say the specific date in English language.

Example: May 16, 2020

Most Tagalog native speakers mix Tagalog and English language at a conversational level. And it is known as "Taglish" (Tagalog English)

For the sake of learning Tagalog, I will teach using Tagalog language, However, I will often indicate if it is used conversationally since the "3-units pattern" being discussed here is commonly used in conversation.

For more functions of "ng" particle as a time marker.

Please proceed to Lesson 4 pages 30-34

# Knowledge Check

## Lesson 2

**Direction:** Please fill in the blanks the correct particle marker.

**si** **ng**

Please refer to the given example below.

### Example 1:

Nag-aaral **si** Pedro **ng** wikang Tagalog.

Peter is studying Tagalog language.

1. Magsusulat  Jasmine  liham.  
will write Jasmine letter.  
Jasmine will write a letter.

2. Umalis  Rafael  bansa  
went Rafael country  
Rafael went out of the country.

3. Umiinom  Jake  tubig.  
drinking Jake water  
Jake is drinking water.

4. Naglalaba  Patricia  damit.  
washing Patricia cloth.  
Patricia is washing the cloth.

5. Makikinig  James  paborito niyang musika.  
will listen James his favorite music.  
James will listen to his favorite music.

6. Naghugas  Maria  plato.  
washed Maria plate  
Mary washed the plate.

Please proceed on **page 80** of this book for  
Answer Key

# Lesson 3

In previous lessons, you have learned about the functions of particle "si" "ni" and "ng" which you will use in **Verb + Subject + Object** pattern that you will learn in this lesson.

After this lesson, you are expected:

- To construct the most commonly used pattern by most native speakers. **Verb + Subject + Object**

But before you read this,

Please download the "Three (3) Units Pattern Sheets" attached with this ebook for Lesson 3.

Let's Start!

## THREE (3) UNITS PATTERN

### Verb + Subject + Object

**ng** object marker of aklat/libro (book)

Let's say this is you and you want to say in Tagalog.  
"I am reading a book."  
How will you say it?

Let's begin with the following phrase:

**I am reading a book.**

1                      2                      3

First, Let's find out the units we need to translate in Tagalog. In this phrase, we have;

1		2		3
I	am	reading	a	book
Ako		nagbabasa		libro

I is **Ako** in Tagalog  
reading is **nagbabasa**  
book is **libro/aklat**

In this phrase, "am" has no equivalent translation in Tagalog. Also, "a" is an article in English which we do not use in Tagalog to mark the object. In this case, object is libro.

Next, let's arrange the sentence based on the "Verb+Subject+Object" sentence pattern

1	2	3
<b>Nagbabasa</b>	<b>ako</b>	<b>libro</b>
<b>verb</b>	<b>subject</b>	<b>object</b>

Then, let's mark each unit with the proper particle/article/marker

<b>Nagbabasa</b>	<b>ako</b>	<b>ng</b>	<b>libro</b>
reading	I	direct object marker	book

- In this pattern, **nagbabasa** is the verb of this phrase. When the verb is in the first unit of the sentence. We do not use "**ay**" marker. Therefore, after the verb, we do not put particles. The form of the verb used in this structure is a subject focus sentence.
- **Ako** literally means **I**.
- the **direct object** of this sentence is **libro** (book).
- And "**ng**" in this phrase functions as a **direct object marker**. Therefore, we will put "**ng**" before **libro**.

In English, to state, I am reading. It start with the pattern  
Subject **I**, Verb with a linking verb: **am reading** and Object **book**

But in Tagalog,

In this sentence, we arranged it by the following sentence pattern:

**Verb + Subject + Object**

which uses particle **ng** as a direct object marker.

Therefore, if we arrange this. It will become.

**Nagbabasa ako ng libro.**

Which means, **I am reading a book.**

If you will look at the attached Pattern Sheet, You will see the proper sequence of three units pattern we are learning here.

Also, you will see that the  
Present Tense of "**reading**" in Tagalog for this pattern is  
**Nagbabasa**

Also, just to reiterate,

This pattern uses particle **ng** before the **direct object**.

And the proper sequence is:

**Verb + Subject + ng + object**

**Nagbasa**

which means

**read**

**Verb**

**siya**

which means **He/She**

**Subject**

**ng**

direct  
object  
marker

**libro**

which means **book**

**Object**

Which means, **He/She read a book.**

If you will look at the attached Pattern Sheets, you will see the proper sequence of three-units pattern we are learning.

Also, you will see that the

Past Tense "**read**" in Tagalog for this pattern is

**Nagbasa**

*There are two  
people reading a  
book.*

**Nagbabasa**

which means **reading**

**verb**

**silá**

which means **They**

**subject**

**ng**

direct  
object  
marker

**libro**

which means **book**

**object**

Which means, **They are reading a book.**

If you will look at the attached Pattern Sheets, You will see the proper sequence of three-unit patterns we are learning.

Also, you will see that the

Present Tense "**reading**" in Tagalog for this pattern is

**Nagbabasa**

And the **pronoun** used in this pattern is **silá**

Another example:

*This is Vic and he's  
drinking coffee...  
Please describe what  
he's doing in Tagalog.*

**Iinom**

which means  
**will drink**  
**verb**

**si**

**Vic**

**si Vic**  
**subject**

**ng**

direct  
object  
marker

**kape**

which means  
**coffee**  
**object**

Which means, **Vic will drink coffee.**

If you look at the attached Pattern sheet, You will see that the Future Tense of "**drink**" in Tagalog for this pattern is "**will drink**"

Also, in this phrase, name Vic uses particle "si" that functions as a name marker for one person

# Knowledge Check

## Lesson 3

**Direction:** Arrange the following words using 3 units pattern you have learned.

**Verbs + Subject+ Object (with "ng" as a direct object marker)**

Example

ako ng nag-aaral wikang Tagalog

I studying Tagalog language

Nag-aaral ako ng wikang Tagalog

Verb + Subject + ng + Object

I am studying Tagalog language.

1 kumakain ng sila gulay

eat/eating They vegetable

Verb + Subject + ng + Object

They are eating vegetable.

They eat vegetable.

2 damit ako naglaba ng

cloth I washed

Verb + Subject + ng + Object

I washed the cloth.

3 siya ng umiinom kape

He/She drinks/ drinking coffee

Verb + Subject + ng + Object

He/She is drinking coffee.

He/She drinks coffee.

4 ng basketbol maglalaro kami

basketball will play We

Verb + Subject + ng + Object

We will play basketball.

5 si Joy ng nakikinig musika

Joy listens/listening music

Verb + Subject + ng + Object

Joy is listening to music.

Joy listens to music.

Please proceed on  
**page 81** of this book  
for Answer Key

# Lesson 4

In this lesson, you will learn the multiple functions of Particle "sa" which we will use in Lesson 5 for Three (3) units pattern: beginning phrase to construct Tagalog sentences.

**Verb+ Subject + sa + Place/time/receiver of the action**

## sa

1. used as a **place** marker

- Place of **action** marker
- Place of **destination** marker
- Place of **object**

2. Used as a **time** marker

3. Used with "**para**" which translates as preposition "**for**"

**marker of beneficiary of the actor's action**

**para sa** + receiver of the action

# "sa" as a **place of action** marker

"sa" serves as a **place marker**

Applies to place of action

**sa + place of action**

*These kids name are: from left (Ana, Dan and Pam) and they are playing at the park.*

*Please describe what they are doing in Tagalog language using our pattern.*

**Example 1:**

They are playing at the park.

Naglalaro	sila	<b>sa</b>	parke.
which means <b>playing</b>	which means <b>They</b>	place marker	which means <b>the park</b>
Verb	subject		place of action

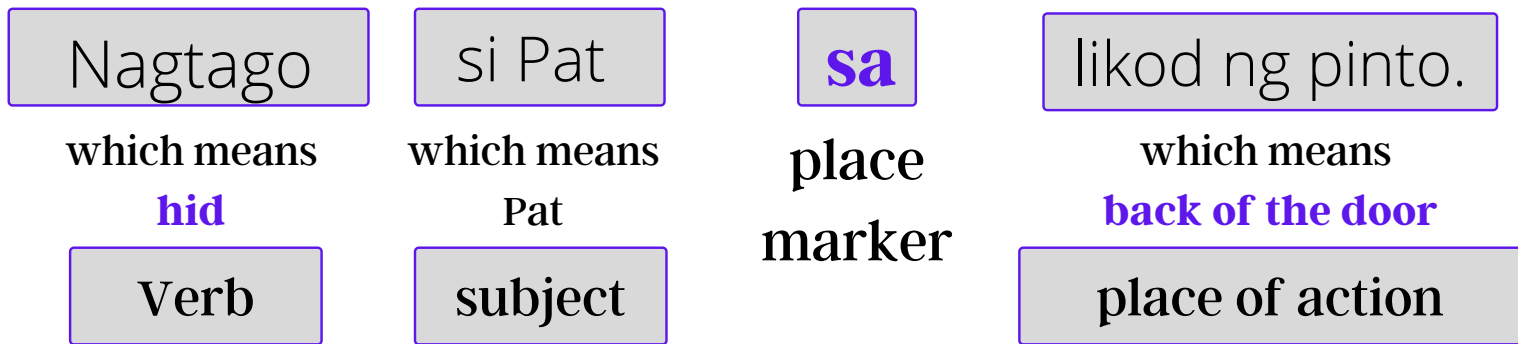

In this pattern,

**"sa"** functions as a marker of place of action  
**parke** (park) is the **place of action**

Example 2:

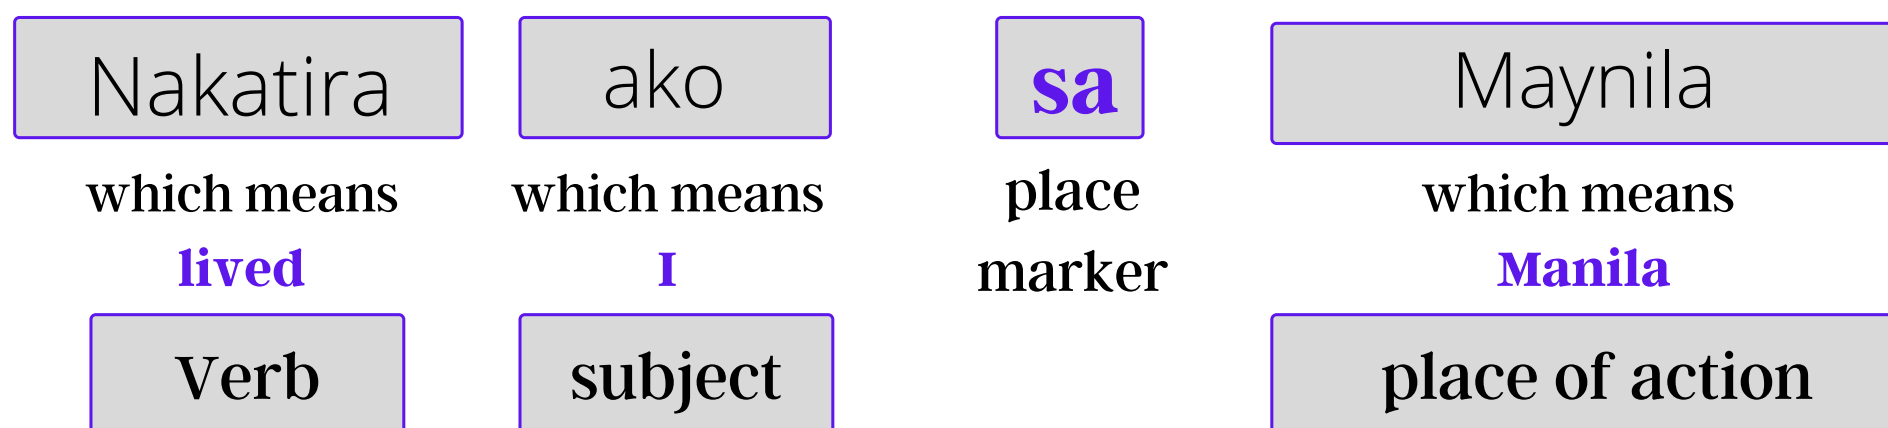

Pat hid at the back of the door.

In this pattern,  
"sa" functions as a marker of **place of action**  
**likod ng pinto** (back of the door) is the **place of action**

Example 3:

I lived in Manila.

In this pattern,  
"sa" functions as a marker of place of action  
**Maynila (Manila)** is the **place of action**

Before we proceed to the next function of Particle "sa"  
Let's define the difference between

### **Place of Action and Place of Destination**

#### **Place of Action**

is the place where the action take/was taken/will take place.  
It means that the action is currently/being done/will take to that place.

#### **Example Scenario:**

You are drinking hot coffee at the coffee shop,  
**Coffee Shop** where you are drinking coffee is considered as a  
**"Place of Action"**

#### **Place of Destination**

is the place where you are planning to go, going, or have gone.

#### **Example Scenario:**

You are planning to travel abroad. Let's say, America.  
**America**, where you are planning to go is considered as a  
**"Place of Destination"**

Commonly used verbs in "Place of Destination" are motion verbs like:  
Punta (go), balik(return), darating (coming), papasok (go/enter)

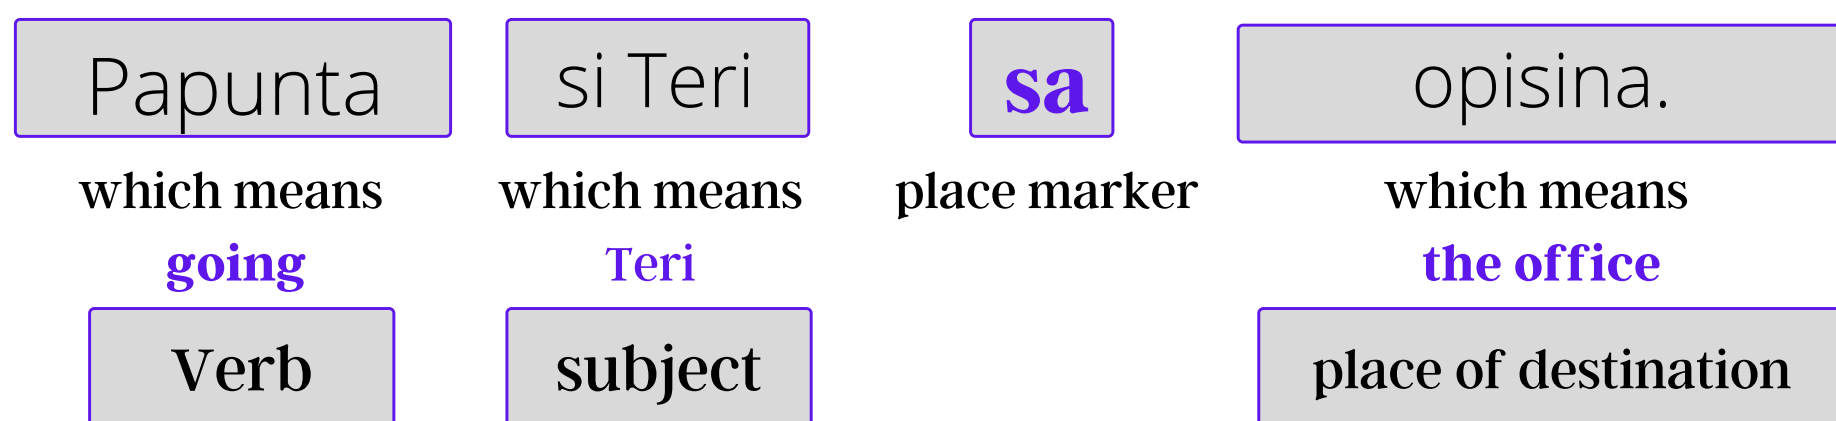

# "sa" as a **place of destination** marker

"sa" as a marker of **place of destination**  
applies to pattern  
**Verb + Subject + place**

## sa + **place of destination**

Example 1:

Teri is going to the office.

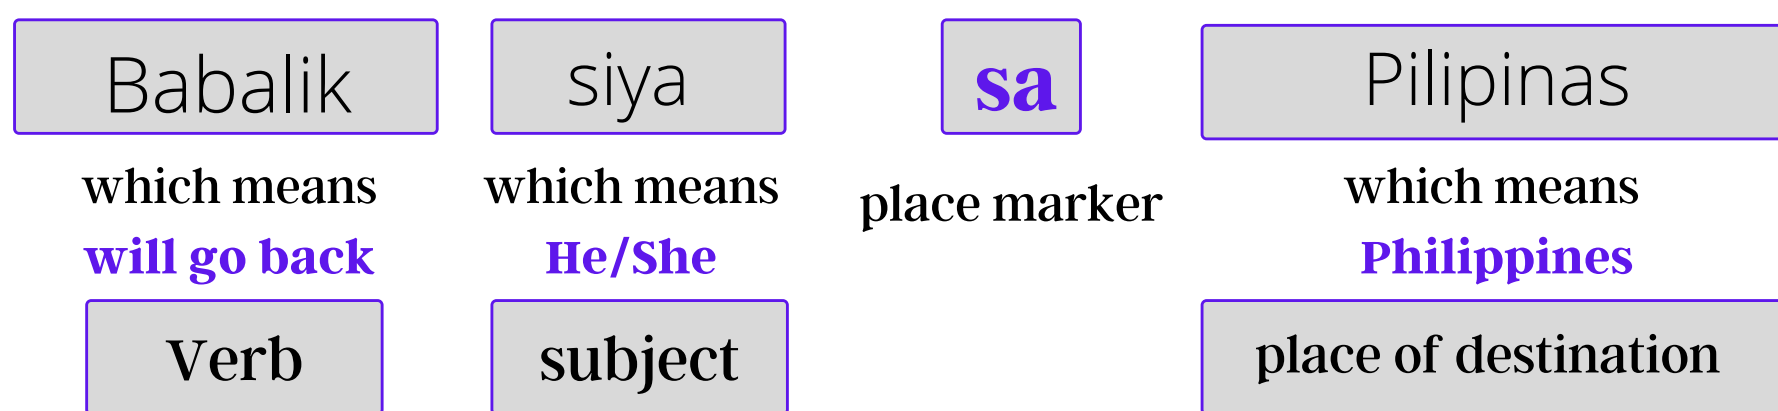

In this pattern,  
"sa" functions as a marker of place of destination  
opisina (office) is the **place of destination**

Example 2:

He/She will go back to the Philippines.

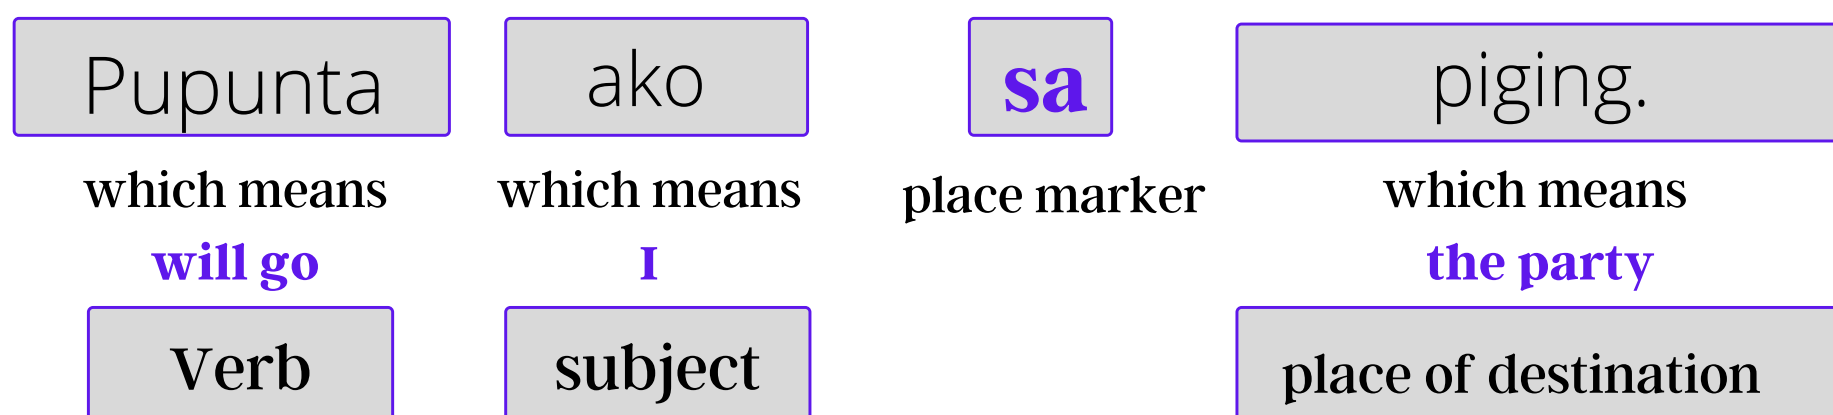

In this pattern,  
**"sa"** functions as a marker of place of destination  
 Pilipinas (Philippines) is the **place of destination**

Example 3:

I will go to the party

In this pattern,  
**"sa"** functions as a marker of place of destination  
 piging (party) is the **place of destination**

**Note:** Tagalog native speakers does not commonly used "piging" at a conversational level.  
*piging is commonly used in formal style of speech.*  
*party is the most commonly used term in conversation.*

# "sa" as a **place of object** marker

"sa" functions as a marker to the **place of object**

Verb + Object+ sa + Place of object

## sa + **place of object** marker

Example 1:

The pencil fell under the table.

Nahulog	ang lapis	sa	ilalim ng lamesa
which means <b>fell</b>	which means <b>the pencil</b>	serves as <b>place marker</b> of object	which means <b>under the table</b>
Verb	object		place of object

In this pattern,

"sa" functions as a marker to the **place of object**

**ilalim ng lamesa** (under the table) is the **place of object** **lapis** (pencil)

Example 2:

In this pattern,

"sa" functions as a marker to the **place of object**  
**pitaka** (wallet)

**loob ng kabinet** (inside the cabinet) is the  
**place of object**

The wallet saw inside the cabinet.

Nakita	ang pitaka	sa	loob ng kabinet
which means <b>saw</b>	which means <b>the wallet</b>	serves as <b>place marker</b> of object	which means <b>inside the cabinet</b>
Verb	object		place of object

Example 3:

Please get the pillow on top of the bed.

Paki-abot	ang unan	sa	ibabaw ng kama
which means <b>Please get</b>	which means <b>the pillow</b>	serves as <b>place marker of object</b>	which means <b>top of the bed</b>
Verb	object		place of object

In this pattern,  
"sa" functions as a marker to the **place of object**  
**ibabaw ng kama** (top of the bed) is the **place of object unan**(pillow)

# "sa" as a time marker

"sa" serves as a **time marker**

This marker applies to dates, weeks, months and years (specific or not)

If you will remember in Lesson 2: "ng" as a time marker  
Particle "sa" is also a time marker. Let's compare the difference  
between particle "ng" and "sa" as a time marker.

Both **time marker "ng"** and **"sa"**  
in the "time of clock" and "date"  
uses conjugation

**Ika-**

**sa**

**Magtatapos sila sa Ika-24 ng Marso.**  
*They will graduate on the 24th of March.*

**ng**

**Magtatapos sila ng Ika-24 ng Marso.**  
*They will graduate on the 24th of March.*

Mario asked Mike  
about the time  
they are going  
to meet up  
tomorrow.

*This is Mario*

*This is Mike*

Mike could replied  
using either "sa" or  
"ng" particle

**sa**

**Magkikita tayo sa ika-anim ng gabi.**  
*We will meet at 6:00 in the evening.*

**ng**

**Magkikita tayo ng ika-anim ng gabi.**  
*We will meet at 6:00 in the evening.*

**Both are correct and produces the same meaning.**

Note: Using of **Ika-** conjugation for Tagalog native speakers is considered **formal way of expressing time**.  
Therefore, The above examples are both **not commonly used** in a **conversational level**.

Please see example below which are commonly used in stating the specific time and date

**Magkikita tayo ng Alas-sais ng gabi.**

**Magkikita tayo ng six o'clock pm.**

Tagalog native speaker uses "Alas" **which is spanish term and English terms** in expressing time.  
Also, using of "Alas" and English terms indicates that the style of speech is "informal" way of expressing time.

## Stating Specific date

**sa**

**Magtatapos sila sa March 24.**  
*They will graduate on March 24.*

***Used in Conversational Level***

This pattern of stating the specific date is commonly used by a Tagalog native speakers at a **conversational level**.

And your observation is correct, It is a common language for a tagalog speaker to mix Tagalog and English language. And it is called: Taglish

**ng**

**Magtatapos sila ng Ika-24 ng Marso.**  
*They will graduate on the 24th of March.*

***Used in Formal Style of Speech***

Tagalog native speakers always uses **ika-** with **ng** marker when stating the specific date and time and this is commonly used in **Formal** Style of Speech. (In my online course, Tagalog Course 1, I discussed there the different Style of Speech of Tagalog Native Speakers.)

## Stating Specific time

### sa

**Kakain tayo sa ika-anim ng gabi.**

We will eat *at 6:00 in the evening.*

*Used in Formal Style of Speech*

Tagalog native speaker **does not use** prefix **Alas-** when using "sa" marker in indicating **specific time.**

### ng

**Kakain tayo ng alas-sais ng gabi.**

We will eat *at 6:00 in the evening.*

*Used in Conversational Level*

Tagalog native speaker commonly **used** prefix **Alas-** when using "ng" marker in indicating **specific time** at a **conversational level**

Both were correct, you can use any of the above style of speech.

## Uses of "sa" and "ng" particle weeks, months and time of the day

### Days of the Week

### sa

**Magkikita sila sa linggo.**

*They will meet on Sunday.*

### ng

**Magkikita sila ng linggo.**

*They will meet on Sunday.*

The above phrases are both use in a conversational level.

Both were correct, Therefore, you can use any of the above style of speech.

## Time of the day

**sa**

Pupunta kami **sa umaga**.  
*We will come in the morning.*

**ng**

Pupunta kami **ng umaga**.  
*We will come in the morning.*

The above phrases are both use in a conversational level.  
Both were correct, Therefore, you can use any of the above style of speech.

## Month

**sa**

Magtatapos tayo **sa buwan ng Marso**.  
*We will graduate in the month of March.*

**ng**

Magtatapos tayo **ng buwan ng Marso**.  
*We will graduate in the month of March.*

## Year

**sa**

Mamamasyal siya **sa taong 2020**.  
*He/She will travel in year 2020*

**ng**

Mamamasyal siya **ng taong 2020**.  
*He/She will travel in year 2020*

In the case of months and years, For a tagalog native speaker, both can be used but the more commonly used form is the pattern with particle "sa"  
But you can use any of the above, you will still be understood.

## Another information

Tagalog of 2020 is dalawang-libo dalawampu which is not commonly used by a Tagalog native speaker at a conversational level.

However, it is commonly used in "Formal Style of Speech."

The most common way to say 2020 is Twenty-twenty/Two thousand twenty

(yes, you read it right, most Tagalog native speaker uses english word everytime they state years.

## Please Remember

**sa**

**ng**

	<b>sa</b>	<b>ng</b>
Specific Time of the Clock	Uses <b>ika-</b> Used in <b>Formal</b> Style of Speech	Uses <b>ika-</b> used in Formal Style of Speech Uses <b>Alas-</b> used in conversational level
Specific Date	Both particle Uses <b>ika-</b> Both Used in <b>Formal</b> Style of Speech	
Time of the Day	<b>Both particle uses as a time marker and used at a conversational level</b>	
Days of the Week		
Month		
Year		

## **"sa" as a "beneficiary of actor's action" marker**

This is another bonus lesson!

"sa" as **"beneficiary of actor's action"** marker is not in used in three (3) units pattern we are currently learning. However, I still include it for additional information in case you encounter this somewhere while learning Tagalog language.

Enjoy learning!

# "sa" as "beneficiary of actor's action"

"sa" functions as a marker to "beneficiary of actor's action"

"Para" literally translates as "for" in Tagalog

Therefore: **para sa + beneficiary of actor's action**

Example 1:

He/She is sacrificing for the country.

Nagsasakripisyo	siya	para sa	bayan
which means <b>sacrificing</b>	which means <b>He/She</b>	<b>for</b>	which means <b>country</b>
Verb	Subject doer of the action	Preposition	receiver of the action

In this pattern,

"para sa" para literally translates as preposition "for"

and particle "sa" functions as a marker to "beneficiary of the actor's action"

**bayan** (country) is the *beneficiary of the action* **nagsasakripisyo** (sacrificing)

Another information about the sound of Panghalip (Pronoun) "siya" (He/She). If you will listen in the audio file, sound of **siya** sounds like in the word "shall"

siya = sha

And that is the most common way a Tagalog native speaker pronounce the panghalip "siya"

Example 2:

I will clean for the visitors.

Maglilinis	ako	para sa	mga bisita
which means <b>will clean</b>	which means <b>I</b>	<b>for</b>	which means <b>visitors</b>
Verb	Subject doer of the action	Preposition	receiver of the action

In this pattern,

"para sa" para literally translates as preposition "for"

and particle "sa" functions as a marker to "beneficiary of the actor's action"

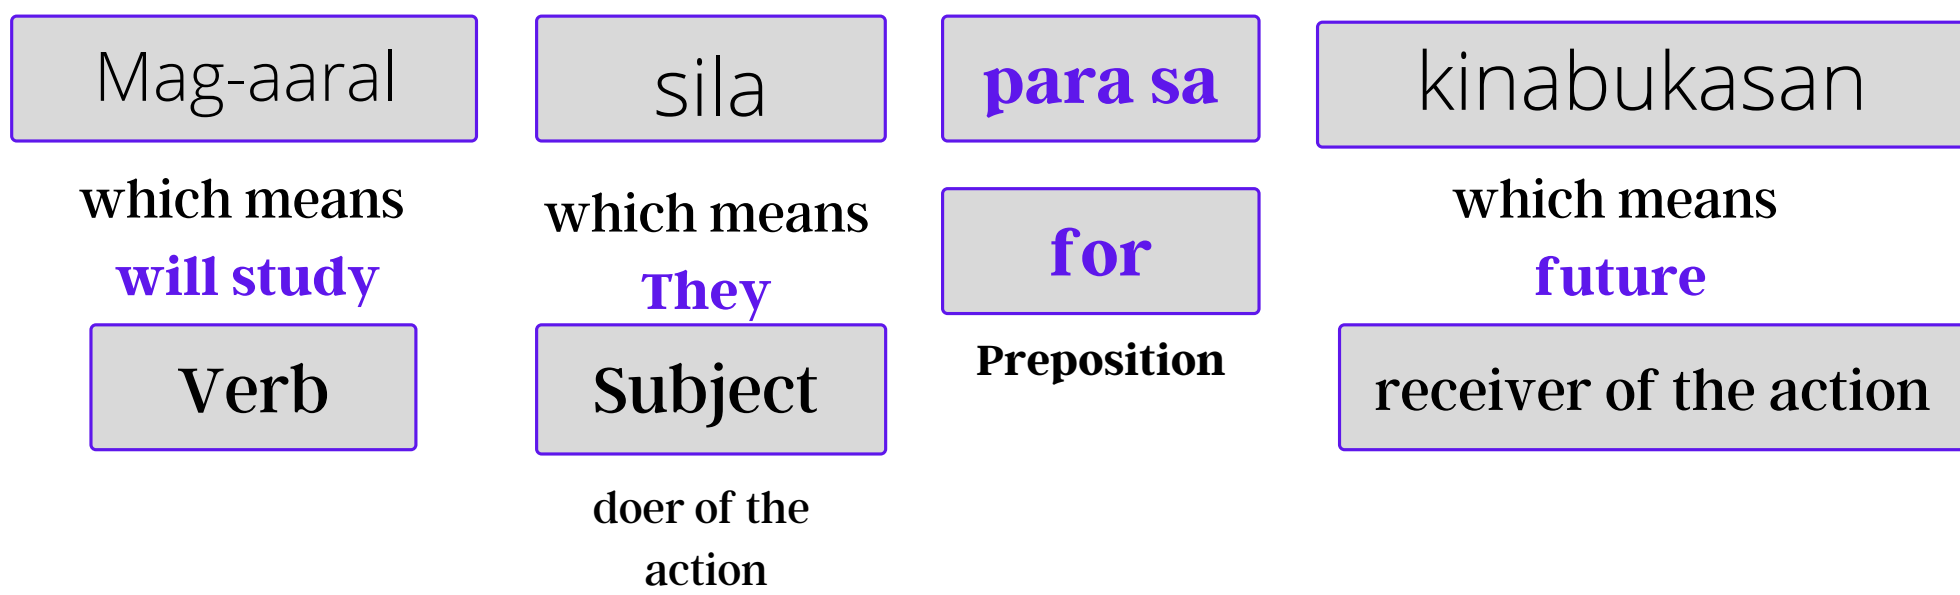

**bisita** (visitors) is the *beneficiary of the action* **maglilinis** (will clean)

Example 3:

They will study for the future.

In this pattern,  
"para sa" para literally translates as preposition "for"  
and particle "sa" functions as a marker to "beneficiary of the actor's action"  
**kinabukasan** (future) is the *receiver of the action* **mag-aaral**(will study)

# Lesson 5

In the previous lessons, you have learned about the functions of particle "sa" which you will use in **Verb + Subject + Place** pattern that you will learn in this lesson.

After this lesson, you are expected:

- To construct the most commonly used pattern by most native speakers. **Verb + Subject + Place**

But before you read this,

Please download the "Three (3) Units Pattern Sheets" attached with this ebook for Lesson 5.

Let's Start!

## 3 UNITS PATTERN

### Verb + Subject + Place

**Nag-aaral**

which means  
**studying**

**Verb**

**ako**

which means  
**I**

**Subject**

**sa**

**place  
marker**

**ingglatera**

which means  
**England**

**place**

Which means,  
**I am studying in England.**

In this pattern, "**sa**" functions as a marker of place of action  
**Ingglatera** (England) is the place where action is taken place.  
Another, **nag-aaral** comes from the rootword "**aral**" and if you look at the  
pattern sheets for this lesson, the **present** tense form of aral is "**nag-aaral**".

**Nakatira**

which means  
**lived**

**Verb**

**ako**

which means  
**I**

**Subject**

**sa**

**place  
marker**

**Maynila**

which means  
**Manila**

**place**

Which means,  
**I lived in Manila**

In this pattern, "**sa**" functions as a marker of place of action  
Maynila (Manila) is the place where action is taken place.  
Another, **everytime** we will express the **place** where we live in  
**Tagalog**. Even if we are currently living in the said place, we  
always use stative verb "**nakatira**" which is in past tense form  
or "**Perpektibo**" in Tagalog.

Please note that we never used present tense form or  
**imperpektibo** in expressing where we are currently living.

This is a picture of  
Manila City Hall  
located in Manila,  
Philippines

**Titira**

which means  
**will live**

**Verb**

**ako**

which means  
**I**

**Subject**

**sa**

**place  
marker**

**Maynila**

which means  
**Manila**

**place**

Which means,  
**I will live in Manila**

In this pattern, "**sa**" functions as a marker of **place of destination**.  
**Maynila** (Manila) is the place of destination.

If you look at the pattern sheet for this lesson, the **future** tense form of **tira** is  
**"titira"**.

### Example 2:

*Where is she going?*

**Papunta**

which means  
**going**

**Verb**

**siya**

which means  
**He/She**

**Subject**

**sa**

**place  
marker**

**Timog Korea**

which means  
**South Korea**

**place**

Which means,  
**He/She is going to South Korea.**

In this pattern, "**sa**" functions as a marker of **place of destination**.  
**Timog Korea** (South Korea) is the place of destination.

Another, **papunta** comes from the rootword "**punta**"

If you look at the pattern sheet for this lesson, the **present** tense form of **punta** is "**papunta**".

**Nagpunta**

which means

**went**

**Verb**

**kami**

which means

**We**

**Subject**

**sa**

**place  
marker**

**Amerika**

which means

**America**

**place**

Which means,  
**We went to America.**

In this pattern, "**sa**" functions as a marker of **place of destination**

**Amerika** (America) is the place of destination

Another, **nagpunta** comes from the rootword "**punta**"

If you look at the pattern sheet for this lesson, the **past** tense form of **punta** is "**nagpunta**".

**Magpupunta**

which means

**will go**

**Verb**

**tayo**

which means

**We**

**Subject**

**sa**

**place  
marker**

**Amerika**

which means

**America**

**place**

Which means,  
**We will go to America.**

In this pattern, "**sa**" functions as a marker of **place of destination**.

**Amerika** (America) is the place of destination.

Another, **magpupunta** comes from the rootword "**punta**"

If you look at the pattern sheet for this lesson, the **future** tense form of **punta** is "**magpupunta**".

## Other Examples

<b>Nagdadasal</b>	<b>silá</b>	<b>sa</b>	<b>simbahan</b>
which means <b>praying</b>	which means <b>They</b>	<b>place</b> marker	which means <b>church</b>
<b>Verb</b>	<b>Subject</b>		<b>place</b>

Which means,  
**They are praying at the church.**

In this pattern, "**sa**" functions as a marker of place of action  
**simbahan** (church) is the place where action is taken place.

Another, **nagdadasal** comes from the root word "**dasal**"  
If you look at the pattern sheet for this lesson, the **present** tense form of  
**dasal** is "**nagdadasal**".

In Tagalog,  
Since there is already particle "**sa**" as a **place marker**,  
we **do not used "ang"** article to mark the place

<b>Nagdasal</b>	<b>silá</b>	<b>sa</b>	<b>simbahan</b>
which means <b>prayed</b>	which means <b>they</b>	<b>place</b> marker	which means <b>church</b>
<b>Verb</b>	<b>Subject</b>		<b>place</b>

Which means,  
**They prayed at the church**

In this pattern, "**sa**" functions as a marker of place of action  
**simbahan** (church) is the place where action is taken place.

If you look at the pattern sheet for this lesson, the **past** tense form of **dasal**  
is "**nagdasal**".

In Tagalog,  
Since there is already particle "**sa**" as a **place marker**,  
we **do not used "ang"** article to mark the place

**Magdadasal**

which means  
**will pray**

**Verb**

**sila**

which means  
**they**

**Subject**

**sa**

**place  
marker**

**simbahan**

which means  
**church**

**place**

Which means,

**They will pray at the church.**

In this pattern, "**sa**" functions as a marker of place of action  
**simbahan** (church) is the place where action is taken place.

If you look at the pattern sheet for this lesson, the **future** tense form of  
**dasal** is "**magdadasal**".

In Tagalog,

Since there is already particle "sa" as a place marker,  
we do not used "ang" article to mark the place

# Knowledge Check

## Lesson 5

**Direction:** Arrange the following words using 3 units pattern you have learned.

### Verbs + Subject+ Place (with "sa" place marker)

Example

siya sa babalik Pilipinas

He/She to will return Philippines

Babalik siya sa Pilipinas.

Verb + Subject + sa + Place

He/She will return to the Philippines.

1 pupunta sa si Pat opisina

will go si Pat office

Verb + Subject + sa + Place

Pat will go to the office.

2 parke sa siya naglalaro

park He/She playing

Verb + Subject + sa + Place

He/She is playing at the park.

3 sa nakatira Maynila ako

lived Manila I

Verb + Subject + sa + Place

I lived in Manila.

4 sila Amerika bumalik sa

They America returned

Verb + Subject + sa + Place

They returned to America.

5 kami manonood sa sinehan

We will watch movie house

Verb + Subject + sa + Place

We will watch at the movie house.

Please proceed on **page 82** of this book for Answer Key

# Lesson 6

In this lesson, you will learn how to construct the most commonly used pattern by most native speakers using the following pattern;

**Verb + Subject + object**  
using name marker "**ni**"  
and "**ang**" that functions as a **noun or object marker**.

**Verb + Subject + object**  
using pronoun "**ko**" "**niya**" "**nila**" "**natin**"  
and "**ang**" that functions as a **noun or object marker**.

But before you read this,  
Please download the " **Three (3) Units Pattern Sheet**" attached with this ebook  
for Lesson 6

Let's Start!

To recap the use of Particle "**ni**" that you have learned from Lesson 1

**ni** uses as a **name** marker of a specific person  
and role of family member

"**ni**" uses if the **focus** of the sentence is the **object**.  
Let me reiterate, **focuses** on the **object** as the **receiver of the action**.

Please see example below:

Kinakain ni Karen ang isda  
*Karen eats the fish.*

In this sentence, it answers the question:  
What **object receives** the **action** of the **subject**?  
It emphasize the object as the receiver of the action  
What is Karen eating?

The answer: Karen eats the fish.  
In Tagalog, Kinakain ni Karen ang isda

Verb + **ni** + name + **ang** + object

**Form of the Verb**  
ni + name with particle "ang"  
uses **infix** conjugation "**um**" in **future** tense of the verb  
uses **prefix "in"** conjugation in **present** and **past** tense of the verb

### 3 UNITS PATTERN

#### Verb + Subject + Object

With Particle "**ni**" as name marker

and

"**ang**" that functions as a noun or object marker.

**Pinapanood**

which means

**watching**

**Verb**

**ni Rosa**

which means

**Rose**

**Subject**

**ang**

noun/object  
marker

**balita**

which means

**news**

**noun**

Which means,  
Rose is watching the news.

As you can see, the above pattern has "**ni**" + name of the doer of the action and followed by "**ang**" + noun

**ang** in this phrase functions as a noun marker.

Also, If you look at the "Pattern Sheet" the verb "Pinapanood" is the Present Tense of Tagalog verb which means "watching" when translated in English.

The form of the verb used in this sentence is an "object focus" verb.

## Other Example

**Pinanood**

which means  
**watched**

**Verb**

**ni Taka**

which means  
**Taka**

**Subject**

**ang**

noun/object  
marker

**balita**

which means  
**news**

**noun**

Which means,  
Taka watched the news.

As you can see, the above pattern has "**ni**" + name of the doer of the action and followed by "**ang**" + noun

**ang** in this phrase functions as a noun marker.

Also, If you look at the "Pattern Sheet" the verb "Pinanood" is the Past Tense of Tagalog verb which means "watched" when translated in English.

The form of the verb used in this sentence is an "object focus" verb.

## Other Example

<b>Papanoorin</b>	<b>ni Mike</b>	<b>ang</b>	<b>balita</b>
which means <b>will watch</b>	which means <b>Mike</b>	noun/object marker	which means <b>news</b>
<b>Verb</b>	<b>Subject</b>		<b>noun</b>

Which means,  
Mike will watch the news.

As you can see, the above pattern has "**ni**" + name of the doer of the action and followed by "**ang**" + noun

**ang** in this phrase functions as a noun marker

Also, If you look at the "Pattern Sheet" the verb "Papanoorin" is the Future Tense of Tagalog verb which means "will watch" when translated in English.

## With Pronoun "**ko**" as a subject and Article "**ang**"

Iinumín ko  
ang kape.

<b>Iinumín</b>	<b>ko</b>	<b>ang</b>	<b>kape</b>
which means <b>will drink</b>	which means <b>I</b>	noun/object marker	which means <b>coffee</b>
<b>Verb</b>	<b>Subject</b>		<b>noun</b>

Which means,  
I will drink coffee.

Based on the above pattern,  
singular pronoun "**ko**" is used as a singular pronoun "I" and followed by "**ang**" + noun  
**ang** in this phrase functions as a noun marker

Also, If you look at the "Pattern Sheet" the verb "**Iinumín**" is the Future Tense of Tagalog verb which means "will drink" when translated in English.

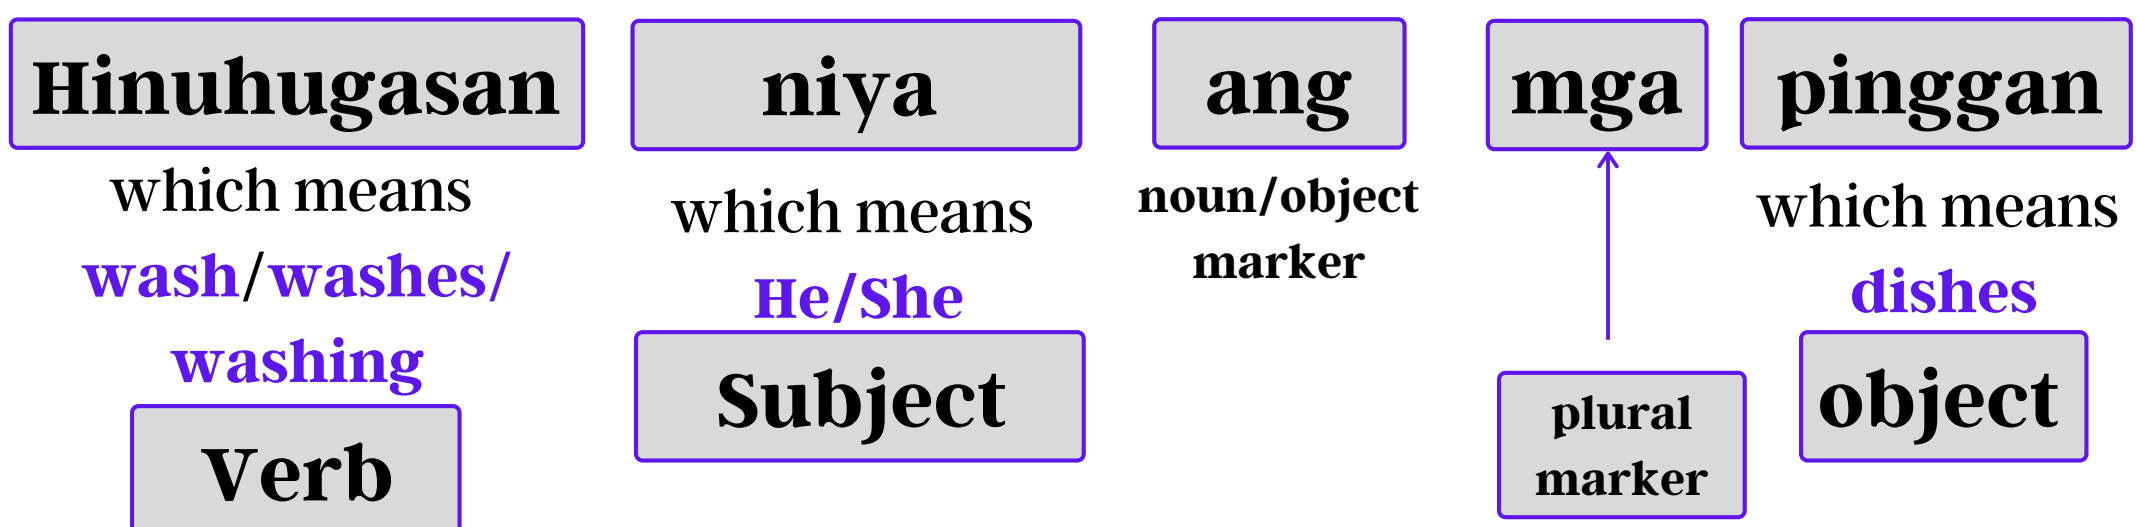

## 3 UNITS PATTERN

### Verb + Subject + Object

With Pronoun "**niya**" "**nila**" and "**natin**"  
and  
"**ang**" that functions as a noun or object marker.

Example 1:

Which means,  
He/She is washing the dishes.

As you can see, the above pattern has the pronoun "**niya**" which could mean either "**He or She**" when translated in English, followed by followed by "**ang**" + noun  
**ang** in this phrase functions as an object marker

Also, If you look at the "Pattern Sheets" the verb "**hinuhugasan**" is the **Present Tense** of Tagalog verb which means "**wash/washes/washing**" when translated in English.

Also, **mga** is a marker use to make the noun plural in Tagalog language.

Additional Information:

<h2 style="text-align: center;">Root Word</h2> <p style="text-align: center; font-size: 1.5em; color: blue;"><b>hugas</b></p> <p style="text-align: center; font-size: 1.5em; color: blue;"><b>hu-gas</b></p> <p style="text-align: center; font-size: 1.5em;"><b>wash</b></p>	<p>In Tagalog, <b>hugas</b> applies to the following:</p> <ul style="list-style-type: none"> <li>• Washing of <b>dishes</b></li> <li>• Washing <b>parts of the body</b> like hands face and feet</li> </ul> <p style="font-size: 0.8em; color: blue;"><i>Note: <b>hugas</b> does not apply to washing of clothes/washing of car/s.</i></p>
	

Example 2:

<b>Inaral</b>	<b>nila</b>	<b>ang</b>	<b>aralin</b>
which means <b>studied</b>	which means <b>They</b>	<b>noun</b> marker	which means <b>lesson</b>
	<b>Subject</b>		<b>noun</b>

Which means,  
They studied the lesson.

As you can see, the above pattern has  
the pronoun "**nila**" which means "**They**"  
when translated in English and followed by "**ang**" + noun  
**ang** in this phrase functions as a noun marker

Also, If you look at the "Pattern Sheets" the verb "**Inaral**" is the **Past Tense** of  
Tagalog verb, which means "**studied**" when translated in English.

Example 3:

<b>Papanoorin</b>	<b>natin</b>	<b>ang</b>	<b>pelikula</b>
which means <b>will watch</b>	which means <b>We</b>	<b>noun</b> marker	which means <b>movie</b>
<b>Verb</b>	<b>Subject</b>		<b>noun</b>

Which means,  
We will watch the movie.

As you can see, the above pattern has  
the pronoun "**natin**" which means "**We**"  
when translated in English followed by "**ang**" + noun  
**ang** in this phrase functions as a noun marker

Also, If you look at the "Pattern Sheets" the verb "**Papanoorin**" is the  
**Future Tense** of Tagalog verbs, which means "**will watch**" when translated  
in English.

**Additional Information:**

To give you an overview about the use of Pronoun word "**natin**" and "**tayo**" in this sentence structure

They are talking with **each other** about the place they went last year.

What do you think the pronoun they will use in Tagalog?

This is Mario

This is Kyle

*Kyle, did you remember the place, where we went last year for our team building?*

*Have you forgotten already? We went to Bohol.*

*Kyle, naalala mo ba ang lugar kung saan **ang** pinuntaban **natin** noong nakaraang taon para sa pagpapalakas ng ating grupo?*

*Nakalimutan mo na agad? Pinuntaban **natin** ang Bohol.*

Figure 1

**Pinuntahan**

which means  
**went**

**Verb**

**natin**

which means  
**We**

**Subject**

**ang**

**Bohol**

which means  
**Bohol**

**place**

Which means,  
We went to Bohol.

As you can see, the above pattern has the pronoun "**natin**" which means "**We**" when translated in English followed by the particle "**ang**" which serves a **place marker**

In Tagalog, if there is already a **particle** before the object, we do not put preposition or other particles anymore because it is redundant.

There's another way of answering the question of Mario:

*Kyle, did you remember the place, where we went last year for our team building?*

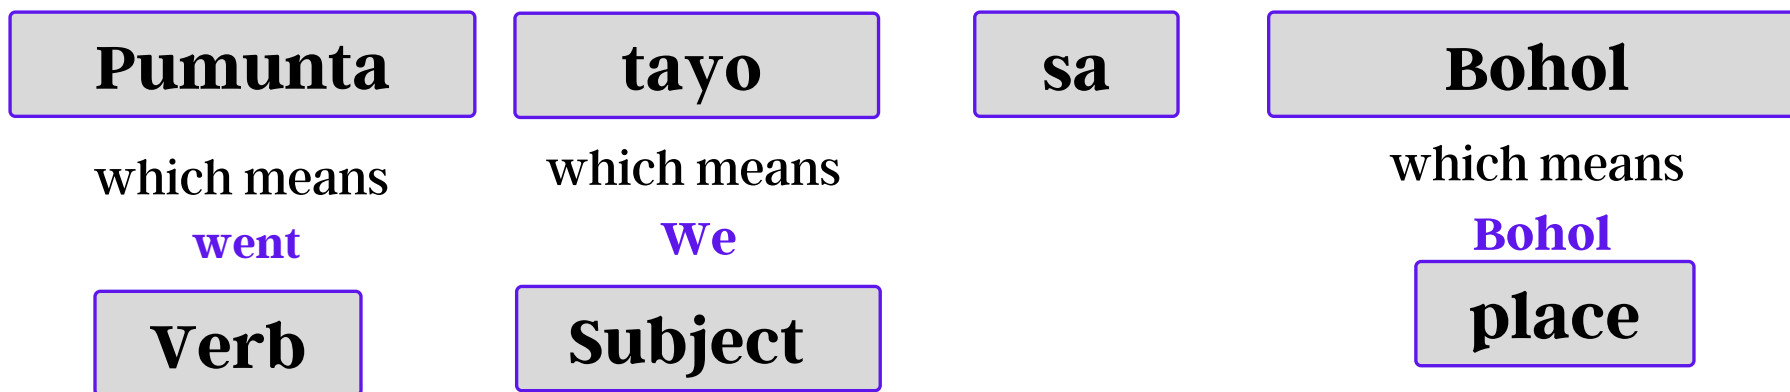

*Kyle, naalala mo ba kung saang lugar tayo pumunta noong nakaraang taon para sa pagpapalakas ng ating grupo?*

*Have you forgotten already? We went to Bohol.*

*Nakalimutan mo na agad? Pumunta tayo sa Bohol.*

Figure 2

Which means,  
We went to Bohol.

As you can see, the above pattern has the pronoun "**tayo**" which means "**We**"

Unlike "**Figure 1**" which uses "**natin**" as a pronoun with the article "**ang**"  
In figure 2, **tayo** uses with the particle "**sa**" which serves as a **place marker**  
and the form of the verb changes

***Pinuntaban*** natin ang Bohol

***Pumunta*** tayo sa Bohol

There is more to learn with Tagalog Pronoun, but I will not discuss it here because we will focus on learning Three-Units Beginning Pattern Sentences.

# Knowledge Check

## Lesson 6

**Direction:** Identify where you will put "ni" particle and arrange the following words using 3 units pattern you have learned with particle "ni" and article "ang".

**Example are given below**

**Example**

Rosa	ang	pinakikinggan	musika
Rose		listening	music

Pinakikinggan    ni Rosa    ang    musika

---

Verb    +    Subject    + \_\_\_\_\_ + Object

Rose is listening to the music.

**1**    manok.    kinain    ang    Joy

chicken    ate    Joy

Verb    +    Subject    + \_\_\_\_\_ + Object

Joy ate the chicken.

**2**    ang    pinggan    huhugasan    Mike

dish    will wash    Mike

Verb    +    Subject    + \_\_\_\_\_ + Object

Mike will wash the dish.

**3**    aklat    binasa    ang    Taka

book    read    Taka

\*\*Read is past tense

Verb    +    Subject    + \_\_\_\_\_ + Object

Taka read the book.

**4**    inaaral    aralin    Pat    ang

studying    lesson    Pat

Verb    +    Subject    + \_\_\_\_\_ + Object

Pat is studying the lesson.

**5**    damit    kukunin    ang    Teri

cloth    will get    Teri

Verb    +    Subject    + \_\_\_\_\_ + Object

Teri will get the cloth.

Please proceed on  
**page 83** of this book  
for Answer Key

# Lesson 7

## Tagalog Verb Tenses

In this lesson you will learn some basic verb conjugations we use depending on the focus of the sentence.

As I have mentioned earlier in Lesson 1:

Tagalog sentence have 2 Focuses, and each one has corresponding verb conjugation.

In English, here are the following tenses they use:

Present: She eats vegetables.

Present Perfect: She has eaten vegetables awhile ago.

Present Progressive: She is eating healthy food at all times.

Present Perfect Progressive: She has been writing letters since early this morning.

Past: She ate vegetables.

Past Perfect: She had eaten appetizer before she ate main dish.

Past Progressive: She was eating yesterday also

Past Perfect Progressive: She had been writing essays when she became interested in poems.

Future: She will eat vegetables.

Future Perfect: She will have eaten all the remaining food by the end of the month.

Future Perfect Progressive: She will be eating while she watches TV tonight.

Future Perfect Progressive: She will have been writing for two days when we take the test.

But in Tagalog, We only have:

Present Tense (Imperpektibo)

Past Tense (Perpektibo)

Future Tense (Kontemplatibo)

Let's now start learning Tagalog tenses!

# Functions of Conjugating Tagalog Verbs

*Please understand that some Tagalog verbs have several meanings just like "abot". There are words that have one meaning only and some have two meanings. One more thing: there are fewer Tagalog words than most foreign languages. This is the reason we simply add conjugations to produce different meanings. Therefore, it's a good idea to master Tagalog vocabulary first, since it will make learning the language more easy for you.*

Conjugating Tagalog verbs produces different meanings depending on what you are trying to express.

It is important to know the root word of the verbs because in Tagalog one root word could produces different definition.

For example the root word "**abot**" could mean **offer** or **reach** something or **pass on** something or **reach on** time or **reach a certain level**

1. In the case of **abot** as **offer**, we uses the following conjugation

**Subject Focus:** **mag-aabot** (will offer), **nag-aabot** (offering), **nag-abot** (offered)

**Object Focus:** **aabutan** (will offer) , **inaabutan** (offering), **inabutan** (offered)

(Please notice that in object focus "**in**" verbs, we change letter "**o**" in the root word to letter "**u**")

Example in a sentence:

**Subject Focus**

**Mag-aabot** siya ng pera sa simbahan. (He/She **will offer** money to the church.)

**Object Focus**

**Aabutan** niya ng pera **ang** simbahan. (He/She **will offer** money to the church.)

(You can use either of the both pattern)

2. In the case of **abot** as **reach something** (we normally uses the object focus verbs)

**Object Focus:** **aabutin** (will reach) , **inaabot** (reaching), **inabot** (reached)

Example in a sentence:

**Inabot** niya ang mansanas sa ibabaw ng Kabinet. (He/She **reached** the apple on top of the cabinet.)

### 3. In the case of abot as **to pass on something**

**Subject Focus:** mag-aabot (will pass), nag-aabot (passing), nag-abot (passed)

**Object Focus:** iaabot (will pass) , inaabot (passing), inabot (passed)

Example in a sentence:

**Nag-abot** siya ng mansanas sa iyo. (He passed on the apple to you.)

**Inabot** niya ang mansanas sa iyo. (He passed on the apple to you.)

### 4. In the case of abot as **reach on time**

**Subject Focus:** aabot (will reach on time), umaabot (reaching on time),  
umabot (reached on time)

**Object Focus:** aabutin (will reach on time) , inaabot (reaching on time), inabot  
(reached on time)

Example in a sentence:

**Subject Focus**

**Umaabot** siya palagi sa tamang oras. (He/She is always **reaching on time**.)

**Object Focus**

**Inaabot** niya palagi ang tamang oras ng pulong natin. (He/She always reaching on time in our meeting.)

*(Again, as I have mentioned earlier, in object focus, there has to be an object/noun to complete the sentence.)*

### 5. In the case of abot as **reach a certain level**

**Subject Focus:** aabot (will reach a certain level), umaabot (reaching a certain level),  
umabot (reached a certain level)

**Object Focus:** aabutin (will reach on time) , inaabot (reaching on time), inabot  
(reached on time)

Example in a sentence:

**Subject Focus**

**Umabot ang marka** niya para **makapasa** sa pagsasanay. (His/Her grades have **reached the passing score** in exercises.)

**Object Focus**

**Inabot ng marka** niya ang makapasa sa pagsasanay. (His/Her grades have **reached the passing score** in exercises.)

*Since Tagalog verbs have many forms based on the sentence focus and can be conjugated in different ways, I cannot cover all the verbs here. Therefore, I have created another book that focuses only on verb conjugation. However, I have included here the following conjugated verb forms*

***Subject Focus:***

***"um" verbs***

***"mag" and "nag" verbs***

***"mang" and "nang" verbs***

***Object Focus***

***"in" verbs***

***"an" verbs***

# How do Subject Focus & Object Focus work in Tagalog Sentence?

Let say you are being asked "what are they doing? and your answer is, for example:

Umiinom sila = They are drinking

"Umiinom sila" is enough for us if we are just answering the question directly. The form of the verb used here is subject focus. Therefore, it emphasizes the action of the actor of the verb "umiinom"

On the other hand,

Iniinom nila = They are drinking

"Iniinom nila" sounds like incomplete statement to us, since the form of the verb use in this statement is an "object focus". Therefore, there has to be an object which receives the action "iniinom"

It should be "Iniinom nila ang (state the liquid they are drinking, it could be coffee/tea/alcohol/juice)

Eample:

Iniinom nila ang kape. (They are drinking the coffee.)

# Form of the Verbs based on Focus

The form of the verbs is based on whether it is Subject Focus or Object Focus. Let me illustrate to you the sample form of the verbs with conjugation based on its focus.

## Subject Focus

### Affix **um**

#### Words that start with vowels

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat <b>1st syllable</b>	Present Tense (Imperpektibo) prefix - <b>um</b> <i>1st letter of the rootword is repeated</i>	Past Tense (Imperpektibo) prefix - <b>um</b>
<b>arte</b>	<b>aarte</b> will act	<b>umaarte</b> act/acting	<b>umarte</b> acted
<b>awit</b>	<b>aawit</b> will sing	<b>umaawit</b> sing/singing	<b>umawit</b> sang
<b>inom</b>	<b>iinom</b> will drink	<b>umiinom</b> drink/drinking	<b>uminom</b> drank
<b>ibig</b>	<b>iibig</b> will love	<b>umiibig</b> loving/in love	<b>umibig</b> loved
<b>iyak</b>	<b>iiyak</b> will cry	<b>umiiyak</b> cry/crying	<b>umiyak</b> cried
<b>upa</b>	<b>uupa</b> will rent	<b>umuupa</b> renting	<b>umupa</b> rented
<b>utang</b>	<b>uutang</b> will borrow	<b>umuutang</b> borrow/borrowing	<b>umutang</b> borrowed

In the Future Tense column, the first letter of the root word is repeated.

**a-** arte  
**a-**awit      **i-**inom  
**i-**ibig      **i-**iyak  
**u-**upa      **u-**utang

In the Present Tense column, the prefix "um" is added before the repeated first letter of root word.

**um-** aarte  
**um-**aawit      **um-**inom  
**um-**iibig      **um-**iiyak  
**um-**uupa      **um-**uutang

In the Past Tense column, the prefix "um" is added before the first letter of the root word. Unlike in Present and Future tense, the first letter of the root word in Past tense is not repeated.

**um-** arte  
**um-**awit      **um-**inom  
**um-**ibig      **um-**iyak  
**um-**upa      **um-**utang

# Subject Focus

## Affix **um**

### Words that start with consonants

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat <b>1st syllable</b>	Present Tense (Imperpektibo) infix - <b>um</b>	Past Tense (Imperpektibo) infix - <b>um</b>
<b>bili</b>	<b>bibili</b> will buy	<b>bumibili</b> buying	<b>bumili</b> bought
<b>kanta</b>	<b>kakanta</b> will sing	<b>kumakanta</b> singing	<b>kumanta</b> sang
<b>kain</b>	<b>kakain</b> will eat	<b>kumakain</b> eating	<b>kumain</b> ate
<b>halik</b>	<b>hahalik</b> will kiss	<b>humahalik</b> kissing	<b>humalik</b> kissed
<b>sayaw</b>	<b>sasayaw</b> will dance	<b>sumasayaw</b> dancing	<b>sumayaw</b> danced
<b>sulat</b>	<b>susulat</b> will write	<b>sumusulat</b> writing	<b>sumulat</b> wrote
<b>takbo</b>	<b>tatakbo</b> will run	<b>tumatakbo</b> running	<b>tumakbo</b> ran

In the **Future Tense** column, the First syllable of the root word is repeated,

**bi-** bili

**ka-**kanta

**sa-**sayaw

**ka-**kain

**su-**sulat

**ha-**halik

**ta-**takbo

In the **Present Tense** column, the First syllable is repeated, but the infix "**um**" is added **between** the letters of the first syllable

**bumi-** bili

**kuma-**kanta

**suma-**sayaw

**kuma-**kain

**sumu-**sulat

**huma-**halik

**tuma-**takbo

In the **Past Tense** column, the First syllable is not repeated, unlike in Present tense column. But the infix "**um**" is added between the first syllable

**bumi-** li

**kuma-**nta

**suma-**yaw

**kuma-**in

**sumu-**lat

**huma-**lik

**tuma-**kbo

# Subject Focus

## Affix "mag" and "nag"

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat 1st syllable	Present Tense (Imperpektibo) infix - um	Past Tense (Imperpektibo) infix - um
<b>luto</b>	<b>magluluto</b> will cook	<b>nagluluto</b> cooking	<b>nagluto</b> cooked
<b>punta</b>	<b>magpupunta</b> will go	<b>nagpupunta</b> going	<b>nagpunta</b> sang
<b>laba</b>	<b>maglalaba</b> will wash clothes	<b>nag-lalaba</b> washing clothes	<b>naglaba</b> washed clothes
<b>aral</b>	<b>mag-aaral</b> will study	<b>nag-aaral</b> studying	<b>nag-aral</b> studied
<b>sulat</b>	<b>magsusulat</b> will write	<b>nagsusulat</b> writing	<b>nagsulat</b> wrote
<b>iisip</b>	<b>mag-iisip</b> will think	<b>nag-iisip</b> thinking	<b>nag-isip</b> thought
<b>away</b>	<b>mag-aaway</b> will fight	<b>nag-aaway</b> fighting	<b>nag-away</b> fought

In the Future Tense column, the first syllable of the root word is repeated. And prefix "mag" is added before the first syllable.

**magluluto**  
**magpupunta**      **magsusulat**  
**maglalaba**      **mag-iisip**  
**mag-aaral**      **mag-aaway**

In the Present Tense column, the first syllable is repeated, And prefix "nag" is added before the first syllable.

**nagluluto**  
**nagpupunta**      **nagsusulat**  
**naglalaba**      **nag-iisip**  
**nag-aaral**      **nag-aaway**

In the Past Tense column, First syllable is **not** repeated unlike in Present and Past tense column. And prefix "nag" is added before the first syllable.

**nagluto**  
**nagpunta**      **nagsulat**  
**naglaba**      **nag-isip**  
**nag-aral**      **nag-away**

### Another point to remember

Notice that "if the root word starts with a vowel letters", there is a dash (-) symbol between **mag/nag** and the root word,

Example:  
**mag-aaral**  
**nag-aaral**  
**nag-iisip**

# Subject Focus

## Affix "mang" and "nang"

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) add prefix <b>mang</b> repeat 1st syllable	Present Tense (Imperpektibo) add prefix <b>nang</b> repeat 1st syllable	Past Tense (Imperpektibo) add prefix <b>nang</b> do not repeat 1st syllable
<b>inis</b>	<b>mang-iinis</b> will pissed off someone	<b>nang-iinis</b> pissing off someone	<b>nang-inis</b> pissed off someone
<b>asar</b>	<b>mang-aasar</b> will pissed off someone	<b>nang-aasar</b> pissing off someone	<b>nang-asar</b> pissed off someone
<b>akit</b>	<b>mang-aakit</b> will lure someone	<b>nang-aakit</b> luring someone	<b>nang-akit</b> lured someone
<b>abala</b>	<b>mang-aabala</b> will disturbed someone	<b>nang-aabala</b> disturbing someone	<b>nang-abala</b> disturbed someone
<b>away</b>	<b>mang-aaway</b> will fight someone	<b>nang-aaway</b> fighting someone	<b>nang-away</b> fought someone
<b>isda</b>	<b>mangingisda</b> will fish	<b>nangingisda</b> fishing	<b>nangisda</b> fished
<b>utang</b>	<b>mangungutang</b> will loan/borrow from someone	<b>nangungutang</b> loaning/borrowing from someone	<b>nangutang</b> loaned/borrowed from someone
<b>kuha</b>	<b>mangunguha</b> will get something from someone	<b>nangunguha</b> getting something from someone	<b>nanguha</b> got something from someone
<b>kulimbat</b>	<b>mangungulimbat</b> will steal from someone	<b>nangungulimbat</b> stealing from someone	<b>nangulimbat</b> stole from someone

In the **Future Tense** column, the **first syllable** of the root word is **repeated**, and prefix "**mang**" is added before the **first** syllable. Also, please note that the root word which starts with syllable "is", "u" and "ku" changes its form to "**ngu**" for **ku** and **u**. And "**ngi**" for "**is**". the said root words are **isda**, **utang**, **kuha** and **kulimbat** do not used dash (-) since the first letter in "**ngu**" and "**ngi**" is a consonant "**n**"

**mang-iinis**  
**mang-aabala**      **mangunguha**  
**mang-aakit**      **mangingisda**  
**mangungutang**      **mang-aaway**

In the **Present Tense** column, the first syllable is repeated, And prefix "**nang**" is added before the first syllable. Also, please note that the root word which starts with syllable "is", "u" and "ku" changes its form to "**ngu**" for **ku** and **u**. And "**ngi**" for "**is**". the said root words are **isda**, **utang**, **kuha** and **kulimbat** do not used dash (-) since the first letter in "**ngu**" and "**ngi**" is a consonant "**n**"

**nang-iinis**  
**nang-aabala**      **nangunguha**  
**nang-aakit**      **nangingisda**  
**nangungutang**      **nang-aaway**

In the **Past Tense** column, First syllable is **not** repeated unlike in Future and Present tense column. And prefix "**nang**" is added before the first syllable. Also, please note that the root word which starts with syllable "is", "u" and "ku" changes its form to "**ngu**" for **ku** and **u**. And "**ngi**" for "**is**". the said root words are **isda**, **utang**, **kuha** and **kulimbat** do not used dash (-) since the first letter in "**ngu**" and "**ngi**" is a consonant "**n**"

**nang-inis**  
**nang-abala**      **nanguha**  
**nang-akit**      **nangisda**  
**nangutang**      **nang-away**

***Another point to remember***

- "**Mang**" and "**nang**" verbs are the conjugation we use if we cannot conjugate the verb that are supposed to be conjugated by "**mag**" and "**nag**" verbs.
- Note that if the root word starts with a vowel letters, there is a dash (-) symbol between mang/nang and the root word,

**Example:**

mang-aasar

nang-aasar

nang-asar

Your next question might be this: "How would I know if I will use "**um**" verbs or "**mag**" and "**nag**" or "**mang**" and "**nang**": "verbs in a certain root words?"

Verbs in Tagalog is functional like other Tagalog words, therefore, it is highly recommended to understand the meaning or functions of root words.

In that case, please understand the following points to make it easy for you to remember those words.

(Just a disclaimer, what I am about to share with you here works only 90% of the time, but, I hope this helps.)

**1. We uses "**um**" verbs when the**

- action words expresses "**action**" that can only be done by you. Or it cannot be done without you.
- To follow up the above statement, basically, "**um**" verbs are action **within the area of the person.**

Example:

- **kumakain** which means eating (no one can do eating for you right? Unless you are a baby or disabled to eat)
- **umiinom** which means drinking (no one can drink for you right?)

I said earlier that this tip works 90% of the time only, because there is a loan word sepilyo (brush teeth) an action word that can only be done by you, wherein we do not use "**um**" verbs. Instead, we use "**mag**" and "**nag**" verbs, magsesepilyo (will brush teeth), nagsesepilyo (brushing teeth), and nagsepilyo (brushed teeth) This is because, we normally use "mag and nag" verbs for loan words. But again, not all the time.

**2. We uses "**mag**" and "**nag**" verbs for action words that expresses "**action**"**

- for the **sake of others** or
- action that **you can do with others** or
- action that you do **deliberately** or **with intention.**

Basically, "mag" and "nag" verbs are action within the area of the person.

**Example:**

**magluluto** which means will cook

(Part of Filipino culture, we usually cook not only for us but for other people)

**naglaba** which means washed clothes

(Part of Filipino culture, we usually washed clothes not only for us but for other people)

**nagsisimba** which means attending church

(Part of Filipino culture, we usually attend mass with our family or loved ones or friends)

**3. "mang" and "nang" verbs** are used when we are describing the action that has something to do with another person except with the root word "isda"

**Example:**

mang-aaway - will fight someone

mang-aakit - to lure someone

mangungutang - to borrow from someone

I have mentioned except with the rootword "isda" Please look at the following verb tenses:

mangingisda - will fish, nangingisda - fishing, nangisda - fished

in this case, "mang " and "nang" verbs are being utilized because of the sound concern. rootword with the "is" sounds uses "mang" and "nang " verbs

**4. "um", "mag" , "nag", "mang" and "nang" verbs** are used when we are describing the action of the actor. That is why the said verbs are utilize in the subject focus sentence because it focuses on describing the action of the actor.

**Example: Tumatakbo** ako sa parke. (I am running at the park.)

**Magluluto** ako ng Adobong manok. (I will cook Chicken Adobo.)

**Mangingisda** ako sa ilog bukas. (I will fish in the river tomorrow.)

Based on the verbs used in the above sentences, the action word "tumatakbo", "magluluto" and "mangingisda" describes what the actor (I) is doing which is running, will cook and will fish.

**5.** If you will look at the pattern sheets, "**mag**", "**nag**", "**um**,"**mang**" and "**nang**" verbs are used if the pronoun in that sentence is "**siya**" (he/she), "**sila**" (they), **kami** and **tayo** (we). In Tagalog, we have two (2) ways to express the pronoun he/she and they. And we have four (4) ways to express "we". Please look at the Pattern Sheets attached with this book for reference.

**6.** If you will look at the pattern sheets, "**mag**", "**nag**", "**um**,"**mang**" and "**nang**" verbs are used if the name marker "**si**" is used in the sentence. In Tagalog, we have two (2) name markers which I have mentioned in Lesson 1 of this book.

7. Some root words

**can be conjugated both "um", and "mag" & "nag" verbs,**

Example: Rootword: *sulat*; *sumusulat*, *magsusulat* and *nagsulat*

But

there are **"um"** verbs

that **cannot be conjugated** with **"mag"** and **"nag"** verbs in

the case of

Example: *Kumakain* and *umiinom* (we do not use **mag** and **nag** verbs in these words)

- root words that starts with letter **K**.
- And **action words that cannot be done without you** like drinking and eating.

***Please look at the Pattern Sheets for better illustration about [when we use "um", "nag" and "mag" verbs](#)***

***based on the focus of the sentence and the pronoun used in each focus.***

# Object/Goal Focus

## Affix "in"

### Words that start with vowels

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat 1st syllable add suffix "in"	Present Tense (Imperpektibo) add infix - in repeat 1st syllable	Past Tense (Imperpektibo) add infix - in 1st syllable not repeated
aral	<b>a</b> aralin will study	<b>in</b> aaral study/studying	<b>in</b> aral studied
awit	<b>a</b> awitin will sing	<b>in</b> aawit sing/singing	<b>in</b> awit sang
inom	<b>i</b> inum <u>in</u> will drink	<b>in</b> inum drink/drinking	<b>in</b> inom drank
ibig	<b>i</b> ibigin will love	<b>in</b> iibig love/loving/ in love	<b>in</b> ibig loved
isip	<b>i</b> isipin will think	<b>in</b> iisip thinking	<b>in</b> isip thought
ulit	<b>u</b> ulitin will repeat	<b>in</b> uulit repeating	<b>in</b> ulit repeated
utang	<b>u</b> utangin will borrow	<b>in</b> uutang borrow/borrowing	<b>in</b> utang borrowed

In the Future Tense column, the first letter of the root word is repeated. And suffix "in" was added. Please notice that if the root word has letter "o" like in the case of "inom", letter "o" will change to "u"

**a- aralin**

**a-awitin**      **i-isipin**  
**i-inumin**      **u-ulitin**  
**i-ibigin**      **u-utangin**

In the Present Tense column, the prefix "in" is added before the root word. First letter of root word is repeated.

**in- a-aral**

**in-a-awit**      **in-i-isip**  
**in-i-inum**      **in-u-ulit**  
**in-i-ibig**      **in-u-utang**

In the Past Tense column, the prefix "in" is added before the first letter of the root word. Unlike with the Present and Future tenses, the first letter of the root word in Past tense is not repeated.

**inaral**

**inawit**      **inisip**  
**inumin**      **inulit**  
**inibig**      **inutang**

# Object/Goal Focus

## Affix "in"

### Words that starts with Consonants

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat 1st syllable add suffix "in"	Present Tense (Imperpektibo) add infix - in repeat 1st syllable	Past Tense (Imperpektibo) add infix - in 1st syllable not repeated
<b>kain</b>	<b>kakainin</b> will eat	<b>kinakain</b> eating	<b>kinain</b> ate
<b>luto</b>	<b>lulutu<u>in</u></b> will cook	<b>linuluto/niluluto</b> cooking	<b>linuto/niluto</b> cooked
<b>basa</b>	<b>babasah<u>in</u></b> will read	<b>binabasa</b> reading	<b>binasa</b> read
<b>tawag</b>	<b>tatawag<u>in</u></b> will call	<b>tinatawag</b> calling	<b>tinawag</b> called
<b>sulat</b>	<b>susulat<u>in</u></b> will write	<b>sinusulat</b> writing	<b>sinulat</b> wrote
<b>takbo</b>	<b>tatakbu<u>hin</u></b> will run	<b>tinatakbo</b> running	<b>tinakbo</b> ran
<b>lakad</b>	<b>lalakar<u>in</u></b> will walk	<b>linalakad/nilalakad</b> walking	<b>linakad/nilakad</b> walked

In the **Future Tense** column, the **first letter** of the root word is **repeated**. And suffix "in" was added. Please notice that if the root word has letter "o" like in the case of "takbo" and "luto", letter "o" will change to "u". In the case of root word **lakad** that has letter **d** at the **end of the word**, "d" will change to "r". Another important information to notice, If the root word ends with vowel "a" and "u" just like in the case of "basa" and "takbo" (since we change letter "o" to "u"), we add letter "h" before suffix "in" Therefore, it will become **babasahin** and **tatakbuhin**.

#### kakainin

lulutuin  
babasahin  
tatawagin  
susulatin  
tatakbuhin  
lalakarin

In the **Present Tense** column, the infix "in" is added between the first syllable of the root word. **First letter** of root word is **repeated**. In the case of root word **luto** and **lakad**, it can be expressed in two ways. **One**, the same with other verbs in this column, the infix "in" is added **between the first syllable** of the root word and **first letter of root word is repeated**. **Two**, instead of infix "in", **prefix "ni"** is added and just like with other verbs in this column, first syllable is repeated.

#### kinakain

linuluto/niluluto  
binabasa  
tinatawag  
sinusulat  
tinatakbo  
linalakad/nilalakad

In the **Past Tense** column, the prefix "in" is added in between the first syllable of the root word. Unlike with the Present and Future tenses, the first letter of the root word in Past tense is not repeated. And please notice that the word luto and lakad could also expressed, instead of infix "in", prefix "ni" is added and just like with other verbs in this column, first syllable is repeated.

#### kinain

linuto/niluto  
binasa  
tinawag  
sinulat  
tinakbo  
linakad/nilakad

# Object/Goal Focus

## Affix "in and an"

### Words that start with Vowels

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) • repeat <b>1st syllable</b> • add suffix <b>"an"</b>	Present Tense (Imperpektibo) • add prefix - <b>in</b> • repeat <b>1st syllable</b> • add suffix <b>"an"</b>	Past Tense (Imperpektibo) • add prefix - <b>"in"</b> • <b>1st syllable not repeated</b> • add suffix <b>"an"</b>
<b>alis</b>	<b>aalisan</b> will leave	<b>inaalisan</b> leaving	<b>inalisan</b> left
<b>abot</b>	<b>aabutan</b> will offer something	<b>inaabutan</b> offering something	<b>inabutan</b> offered something
<b>isip</b>	<b>iisipan</b> will think	<b>iniisipan</b> thinking	<b>inisipan</b> thought
<b>ayos</b>	<b>aayusan</b> will fix/arrange/organize	<b>inaayusan</b> fixing/arrange/organize	<b>inayusan</b> fixed/arranged/organized
<b>uwi</b>	<b>uuwian</b> will go home	<b>inuuwian</b> going home	<b>inuwian</b> went home
<b>ingat</b>	<b>iingatan</b> will take care	<b>iniingatan</b> taking care	<b>iningatan</b> took care
<b>utot</b>	<b>uututan</b> will fart	<b>inuututan</b> farting	<b>inututan</b> farted

In the **Future Tense** column, the **first letter** of the root word is **repeated**, and suffix **"an"** was added.

**a- alisan**

**a-abutan**

**u-uwian**

**i-isipan**

**i-ingatan**

**a-ayusan**

**u-ututan**

In the **Present Tense** column, the prefix **"in"** is added **before** the root word. **First letter** of root word is **repeated**. And the suffix **"an"** is added **after** the last letter of the root word.

**inaalisan**

**inaabutan**

**inuuwian**

**iniisipan**

**iniingatan**

**inaayusan**

**inuututan**

In the **Past Tense** column, the prefix **"in"** is added **before** the first letter of the root word. And the suffix **"an"** is added **after** the last letter of the root word. Unlike with the Future and Present tenses, first letter of the root word is not repeated.

**inalisan**

**inabutan**

**inuwian**

**inisipan**

**iningatan**

**inayusan**

**inututan**

Please notice that if the root word has letter **"o"** like in the case of **"ayos"**, **"abot"** and **"utot"**, letter **"o"** will change to **"u"**

# Object/Goal Focus

## Affix "in and an"

### Words that start with Consonants

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat <b>1st syllable</b> add suffix " <b>an</b> "	Present Tense (Imperpektibo) add infix - <b>in</b> repeat <b>1st syllable</b> add suffix <b>an</b>	Past Tense (Imperpektibo) add infix - <b>in</b> <b>1st syllable not repeated</b> add suffix <b>an</b>
<b>kain</b>	<b>kakainan</b> will eat in a certain place	<b>kinakainan</b> eating in a certain place	<b>kinainan</b> ate in a certain place
<b>luto</b>	<b>lulutuan</b> will cook for someone	<b>linulutuan/nilulutuan</b> cooking for someone	<b>linutuan/nilutuan</b> cooked for someone
<b>basa</b>	<b>babasahan</b> will read for someone	<b>binabasahan</b> reading for someone	<b>binasahan</b> read for someone
<b>tawag</b>	<b>tatawagan</b> will call someone	<b>tinatawagan</b> calling someone	<b>tinawagan</b> called someone
<b>sulat</b>	<b>susulatan</b> will write to someone	<b>sinusulatan</b> writing to someone	<b>sinulatan</b> wrote to someone
<b>takbo</b>	<b>tatakbuhan</b> will run somewhere/from someone	<b>tinatakbuhan</b> running somewhere/from someone	<b>tinakbuhan</b> ran somewhere/from someone
<b>lakad</b>	<b>lalakaran</b> will walk somewhere	<b>linalakaran/nilalakaran</b> walking somewhere	<b>linakaran/nilakaran</b> walked somewhere

In Future Tense column, the first letter of the root word is repeated. And suffix "an" was added. Please notice that if the root word has letter "o" like in the case of "takbo" and "luto", letter "o" will change to "u". In the case of root word lakad that has letter d at the end of the word, "d" will change to "r". One more thing, In the case of root words "basa" and "takbo", suffix "han" was added.

**kakainan**

**lulutuan/nilulutuan**

**susulatan**

**babasahan**

**tatakbuhan**

**tatawagan**

**lalakaran**

In the Present Tense column, the infix "in" is added between the first syllable of the root word. First letter of root word is repeated. In the case of root word luto and lakad, it can be expressed in two ways. One, the same with other verbs in this column, the infix "in" was added between the first syllable of the root word and first letter of root word is repeated. Two, instead of infix "in", prefix "ni" was added and just like with other verbs in this column, first syllable is repeated. And the rules in changing letter "o" to "u" and the adding of suffix "han" applies in this tense just like in the previous tense I have mentioned above.

**kinakainan**

**linulutuan/nilulutuan**

**sinusulatan**

**binabasahan**

**tinatakbuhan**

**tinatawagan**

**linalakaran/nilalakaran**

In Past Tense column, the prefix "in" was added in between the first syllable of the root word. Suffix "an" was added. Unlike in Present and Future tense, the first letter of the root word in Past tense is not repeated. And the rules in changing letter "o" to "u" and the adding of suffix "han" applies in this tense just like in the previous tense I have mentioned above.

**kinainan**

**linutuan/nilutuan**

**sinulatan**

**binasahan**

**tinakbuhan**

**tinawagan**

**nilakaran**

Your next question might be this: "How would I know if I will use **"in"** verbs or **"in"** and **"an"** verbs in a certain root words?

As I have mentioned earlier, Verbs in Tagalog language is functional like other Tagalog words, Therefore, it is highly recommend to understand the meaning or functions of root words.

In that case, please understand the following points to make it easy for you to remember those words.

(Just a disclaimer, what I am about to share with you here works only 90% of the time, but, I hope this helps.)

**1. Root words that uses "in" verbs are describing action in relation to the object mentioned in the sentence or describing the purpose of the action.**

- For example: *inaawit* which means singing

Example in a sentence: *Inaawit niya ang kantang "All I want for Christmas is You" ni Mariah Carey.* (He/She is singing the "All I want for Christmas is You" song of Mariah Carey.)

*Based on the verbs used in this sentence, the action word "inaawit" describes what the actor (he/she) is doing in relation of the song which is singing the song "All I want for Christmas is You."*

- Another example, *iniinom* which means drinking

Example in a sentence: *Iniinom ko ang gamot para sa ubo.* (I am drinking the medicine for coughs.)

*Based on the verbs used in this sentence, the action word "iniinom" describes what the actor (I) is doing in relation with the object gamot which is drinking the medicine.*

*As you have observed, we are using both "inaawit" and "iniinom" which have "in" verbs when we are describing the action of the actor in relation to the object mentioned in the sentence.*

**2. Root words that uses both "in" and "an" verbs are action words that conveys a purpose of doing the action.**

For example: *inaawitan* which could mean singing for someone

Example in a sentence which means singing for someone:

**Inaawitan** niya ang mga bata sa bahay-ampunan. (He/She is singing for children in an orphanage.)

Based on the verbs used in this sentence, the action word "**inaawitan**" conveys a purpose of doing the action "**singing**" for children in an orphanage.

Another example, **iniinuman** which means **drinking** for a reason or drinking something on a specific container

**Iniinuman** which means **drinking for a reason**

Example in a sentence: **Iniinuman** ko nang gamot ang ubo ko. (I am already **drinking** the medicine for my coughs.)

Based on the verbs used in this sentence, the action word "**iniinuman**" conveys a purpose of doing the action "**drinking**" for coughs.

**Iniinuman** which means **drinking something on a specific container**

Example in a sentence: **Iniinuman** ko ang baso ng nanay ko. (I am **drinking** in the **glass** of my mother.)

Based on the verbs used in this sentence, the action word "**iniinuman**" conveys the meaning of **drinking something on a mother's glass**.

As you have observed, we are using both "**inaawitan**" and "**iniinuman**" which have "**in and an**" verbs when we are **conveying the purpose of the action**. And in some cases like in "**iniinuman**" we use the said verbs when we want to specify the **place in doing the action**.

3. If you will look at the pattern sheets, "**in**", "**in and an**" verbs are use if the pronoun in that sentence is "**niya**" (he/she), "**nila**" (they), **kami** and **tayo** (we). In Tagalog, we have two (2) ways to express the pronoun he/she and they. And we have four (4) ways to express "we". Please look at the Pattern Sheets attached with this book for reference.

4. If you will look at the pattern sheets, "**in**", "**in and an**" verbs are use if the name marker "**ni**" is used in the sentence. In Tagalog, we have two (2) name marker which I have mentioned in Lesson 1 of this book.

***Please look at the Pattern Sheets for better illustration about [when we use "in", "in and an" verbs](#) based on the focus of the sentence and the pronoun used in each focus.***

## Subject Focus

### A1

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat 1st syllable	Present Tense (Imperpektibo) infix - um	Past Tense (Imperpektibo) infix - um
kain	<b>ka</b> kain will eat	<b>ku</b> ma <b>ka</b> in eat/eating	<b>ku</b> ma <b>ka</b> in ate
inom	<b>ii</b> nom will drink	<b>u</b> mi <b>in</b> om drink/drinking	<b>u</b> mi <b>in</b> om drank
sagot	<b>sa</b> sagot will answer	<b>su</b> ma <b>sa</b> got answer/answering	<b>su</b> ma <b>sa</b> got answered
tawag	<b>ta</b> tawag will call	<b>tu</b> ma <b>ta</b> wag call/calling	<b>tu</b> ma <b>ta</b> wag called
takbo	<b>ta</b> takbo will run	<b>tu</b> ma <b>ta</b> akbo run/running	<b>tu</b> ma <b>ta</b> akbo ran

## Object Focus

### B1

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) repeat 1st syllable Add suffix in	Present Tense (Imperpektibo) prefix - in	Past Tense (Imperpektibo) infix - in
kain	<b>ka</b> ka <b>in</b> in will eat	<b>ki</b> na <b>ka</b> in eat/eating	<b>ki</b> na <b>ka</b> in ate
inom	<b>ii</b> nu <b>in</b> in will drink	<b>ii</b> ni <b>in</b> om drink/drinking	<b>ii</b> ni <b>in</b> om drank
sagot	<b>sa</b> sa <b>gu</b> tin will answer	<b>si</b> na <b>sa</b> got answer/answering	<b>si</b> na <b>sa</b> got answered
tawag	<b>ta</b> ta <b>wa</b> gin will call	<b>ti</b> na <b>ta</b> wag call/calling	<b>ti</b> na <b>ta</b> wag called
takbo	<b>ta</b> ta <b>ku</b> hin will run	<b>ti</b> na <b>ta</b> akbo run/running	<b>ti</b> na <b>ta</b> akbo ran

### A2

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) prefix mag 1st syllable of the root word repeat	Present Tense (Imperpektibo) prefix - nag 1st syllable of the root word repeat	Past Tense (Imperpektibo) prefix - nag 1st syllable of the root word does not repeat
lakad	<b>ma</b> gl <b>la</b> lakad will walk	<b>na</b> gl <b>la</b> lakad walk/walking	<b>na</b> gl <b>la</b> lakad walked
hugas	<b>ma</b> gh <b>u</b> hugas will wash hands/dishes	<b>na</b> gh <b>u</b> hugas wash/washing	<b>na</b> gh <b>u</b> hugas washed
basa	<b>ma</b> gb <b>a</b> basa will read	<b>na</b> gb <b>a</b> basa read/reading	<b>na</b> gb <b>a</b> basa read
sulat	<b>ma</b> gs <b>u</b> sulat will write	<b>na</b> gs <b>u</b> sulat write/writing	<b>na</b> gs <b>u</b> sulat wrote
punta	<b>ma</b> gp <b>u</b> punta will go to...	<b>na</b> gp <b>u</b> punta go/going	<b>na</b> gp <b>u</b> punta went

### B2

Root Word (Salitang-ugat)	Future Tense (Imperpektibo) 1st syllable of the root word repeat add suffix in/an or hin	Present Tense (Imperpektibo) infix - in 1st syllable of the root word repeat	Past Tense (Imperpektibo) infix - in and suffix - an/han 1st syllable of the root word does not repeat
lakad	<b>la</b> la <b>ka</b> rin will walk	<b>ni</b> la <b>ka</b> ka <b>la</b> lakad walk/walking	<b>ni</b> la <b>ka</b> ka walked
hugas	<b>hu</b> hu <b>ga</b> san will wash hands/dishes	<b>hi</b> nu <b>hu</b> gasan wash/washing	<b>hi</b> nu <b>hu</b> gasan washed something
basa	<b>ba</b> ba <b>sa</b> hin will read	<b>bi</b> na <b>ba</b> sa read/reading	<b>bi</b> na <b>ba</b> sa read to someone
sulat	<b>su</b> su <b>la</b> tin will write	<b>si</b> nu <b>su</b> lat write/writing	<b>si</b> nu <b>su</b> lat wrote to someone
punta	<b>pu</b> pu <b>nta</b> han will go to...	<b>pi</b> nu <b>pu</b> ntahan go/going	<b>pi</b> nu <b>pu</b> ntahan went

Tagalog Verbs have two (2) focus, Subject and Object

Each Focus have it's own 2 types of Form of the verbs

**Subject Focus:**

1. **Um** verbs
2. **Mag** verbs and **Nag** verbs

**Object Focus:**

1. **In** verbs
2. **In** verbs and **repeated syllables**

*If you will notice the translation, the meaning of the verb in **subject focus A1** has the **same meaning in object focus B1**. That rule applies to above verb tenses example.*

*Both subject focus and object focus sentences produces the same meaning. Therefore, you can use any of the form of the verb in sentences unless you want to focus either the **subject or the object**.*

*However, in some cases like **Subject Focus A2** and **Object Focus B2**, it produces a different meaning in past tense form and it produce a different meanings in other tenses of the verb depending on the context of the sentence which I will discuss in another book.*

# Knowledge Check

## Lesson 7

**Direction:** Choose the appropriate verb in a given sentence. Tip; look at the pronoun or the name marker used in the sentence.

**Example are given below**

Rose will read the novel.

<b>Babasahin</b>	<b>ni</b>	<b>Rosa</b>	<b>ang</b>	<b>nobela</b>
will read		Rose		novel
• Babasahin		• Magbabasa		

1. Ted is singing the national anthem.

	<b>si</b>	<b>Ted</b>	<b>ng</b>	<b>pambansang awit.</b>
singing		Ted		national anthem
• Kinakanta		• Kumakanta		

2. Mother cooked the stewed milkfish.

	<b>ni</b>	<b>Nanay</b>	<b>ang</b>	<b>paksiw na bangus</b>
cooked		Mother		stewed milkfish
• Niluto		• Nagluto		

3. He/She is cleaning the backyard.

	<b>siya</b>	<b>ng</b>	<b>bakuran.</b>
cleaning	He/She		backyard.
• Naglilinis		• Nililinis	

4. He/She is will study Tagalog language.

	<b>niya</b>	<b>ang</b>	<b>wikang Tagalog.</b>
will study	He/she		Tagalog language.
• Mag-aaral		• Aaralin	

5. They went to the party.

	<b>sila</b>	<b>sa</b>	<b>piging</b>
went	They		party
• Nagpunta		• Pinuntahan	

6. They went to the party.

	<b>nila</b>	<b>ang</b>	<b>piging</b>
went	They		party
• Nagpunta		• Pinuntahan	

Please proceed on **page 84** of this book for Answer Key

# Bonus Lesson

In this Lesson, you will learn

- How Tagalog native speakers uses Pronoun "kita"
- Form a basic phrase using Pronoun "kita"

The word "**kita**" has **three (3)** translations in English

- **Kita** could mean an action word or verb "**earn**"

- Example:

- Isang libong piso ang **kita** ko ngayong araw.

*I **earned** one thousand pesos today*

- **Kita** could also mean an action word or verb "**see**"

- Example

- Nakikita **kita** sa parke.

*I **see** you at the park*

- **Kita** could use as a **dual Pronoun** which we will discuss in this lesson.

Let's start!

# Panghalip (Pronoun) "Kita"

is one of the "dual" Pronoun uses in Tagalog language

**Kita** literally means **two pronoun** word in English  
**I** and **you**

Let's say we have two characters

This is Ana

and

This is Ben

Ben wants to tell Ana that he likes her in Tagalog language.

**Gusto**

means

**like**

or an adjective of desire

**kita**

means

**I\_\_ you**

**Therefore,**

Gusto **kita**

**I like you**

In English, there is no combined pronoun. But in Tagalog, Kita functions as a dual pronoun "I and you." Tagalog native speakers uses "**kita**" to express both pronouns "**I**" and "**You**" in English

I like you

## Other Examples

Nakita **kita**  
I saw **you**

Mahal **kita**  
I love **you**

Kita also indicates the action of the actor (I) for another person (you)

Let's say Ana is (I) and Ben is (You)

Ana will cook for Ben. And Ana wants to tell Ben that she will cook for Ben.

How will Ana say it in Tagalog language?

This is Ana

Actor or doer  
of the action

**I**

**Ipagluluto**

*will cook*

This is Ben

Receiver of  
the action

**you**

**kita**

*for you*

Therefore, **Kita** could also mean "I \_\_\_for you"

When an **actor** (I)  
do something/ will do something or done something  
for the **receiver** of the action (**you**)

## Examples

Ipinagluto **kita**  
**I cooked for you**

Ipagluluto **kita**  
**I will cook for you**

**Kita** could also mean "I \_\_\_to you"

Pakikinggan **kita**  
**I will listen to you**

Pinakinggan **kita**  
**I listened to you**

To compare

In English

I, you  
I for you  
I to you

In Tagalog

**kita**

# Answer Key

# Knowledge Check

## Answer Key: Lesson 1

**Direction:** Please choose the appropriate particle in the sentence.  
**si** or **ni**

**Example 1:**

Nag-aaral **si** Pedro **ng** wikang Tagalog.

Peter is studying Tagalog language.

**Example 2:**

Kakainin **ni** Loti **ang** pagkain.

Loti will eat the food.

**Example 3:**

Namasyal **si** Alex **sa** Hongkong.

Alex took a trip to Hongkong.

1. Bibilhin **ni** Jose **ang** kotse.

Jose will buy the car.

2. Naglaro **si** James **ng** basketbol.

James played basketball.

3. Pinanood **ni** Erika **ang** pelikula.

Erica watched the movie.

4. Nakikinig **si** Mika **ng** musika.

Mica is listening to music.

5. Kinokopya **ni** Joy **ang** sagot.

Joy is copying the answer.

6. Pupunta **si** Maria **sa** Japan.

Maria will go to Japan.

7. Kukunin **ni** Bella **ang** plato.

Bella will get the plate.

# Knowledge Check

## Answer Key: Lesson 2

**Direction:** Please fill in the blanks the correct particle marker.

**si** **ng**

Please refer to the given example below.

### Example 1:

Nag-aaral **si** Pedro **ng** wikang tagalog.

Peter is studying Tagalog language.

1. Magsusulat **si** Jasmine **ng** liham.  
will write Jasmine letter.  
Jasmine will write a letter.

2. Umalis **si** Rafael **ng** bansa  
went Rafael country  
Rafael went out of the country.

3. Umiinom **si** Jake **ng** tubig.  
drinking Jake water  
Jake is drinking water.

4. Naglalaba **si** Patricia **ng** damit.  
washing Patricia clothes.  
Patricia is washing the clothes.

5. Makikinig **si** James **ng** paborito niyang musika.  
will listen James his favorite music.  
James will listen to his favorite music.

6. Naghugas **si** Maria **ng** plato.  
washed Maria plate  
Mary washed the plate.

# Knowledge Check

## Answer Key: Lesson 3

**Direction:** Arrange the following words using 3 units pattern you have learned.

### Verbs + Subject+ Object (with "ng" as a direct object marker)

Example

ako ng nag-aaral wikang Tagalog

I studying Tagalog language

nag-aaral ako ng wikang Tagalog

Verb + Subject + ng + Object

I am studying Tagalog language.

1 kumakain ng sila gulay

eat/eating They vegetable

Kumakain sila ng gulay

Verb + Subject + ng + Object

They are eating vegetable.

They eat vegetable.

2 damit ako naglaba ng

cloth I washed

Naglaba ako ng damit

Verb + Subject + ng + Object

I washed the cloth.

3 siya ng umiinom kape

He/She drinks/drinking coffee

Umiinom siya ng kape

Verb + Subject + ng + Object

He/She is drinking coffee.

He/She drinks coffee.

4 ng basketbol maglalaro kami

basketball will play We

Maglalaro kami ng basketbol

Verb + Subject + ng + Object

We will play basketball.

5 Si Joy ng nakikinig musika

Joy listens/listening music

Nakikinig si Joy ng musika

Verb + Subject + ng + Object

Joy is listening to music.

Joy listens to music.

# Knowledge Check

## Answer Key: Lesson 5

**Direction:** Arrange the following words using 3 units pattern you have learned.

### Verbs + Subject+ Place (with "sa" place marker)

Example

He/She                      to                      will return                      Philippines

Babalik                      siya                      sa                      Pilipinas.

Verb   +   Subject   + **sa**   + Place

He/She will return to the Philippines

1

will go                                      si Pat                                      the office

Pupunta                      si Pat                      sa                      opisina

Verb   +   Subject   + **sa**   + Place

Pat will go to the office.

2

park    He/She                                      playing

Naglalaro                      siya                      sa                      parke

Verb   +   Subject   + **sa**   + Place

He/She is playing at the park.

3

lived                                      Manila                                      I

Nakatira                      ako                      sa                      Maynila

Verb   +   Subject   + **sa**   + Place

I lived in Manila.

4

They                                      America                                      returned

Bumalik                      sila                      sa                      Amerika

Verb   +   Subject   + **sa**   + Place

They returned to America.

5

We                                      will watch                                      movie house

Manonood                      kami                      sa                      sinehan

Verb   +   Subject   + **sa**   + Place

We will watch at the movie house.

# Knowledge Check

## Answer Key: Lesson 6

**Direction:** Arrange the following words using 3 units pattern you have learned.

Please refer to list of Verbs + Subject+ Object (with ng marker) worksheet for translation  
Example are given below

Example

ni Rosa	ang	pinakikinggan	musika
Rose		listening	music

Pinakikinggan ni Rosa ang musika.

Verb + Subject + \_\_\_\_\_ + Object

Rose is listening to the music.

1

manok	kinain	ang	Joy
chicken	ate		Joy

Kinain ni Joy ang manok

Verb + Subject + \_\_\_\_\_ + Object

Joy ate the chicken.

2

ang	pinggan	huhugasan	Mike
	dish	wash	Mike

Huhugasan ni Mike ang pinggan

Verb + Subject + \_\_\_\_\_ + Object

Mike will wash the dish.

3

aklat	binasa	ang	Taka
book	read		Taka

Binasa ni Taka ang book

Verb + Subject + \_\_\_\_\_ + Object

Taka read the book.

4

inaaral	aralin	Pat	ang
studying	lesson	Pat	

Inaaral ni Pat ang aralin

Verb + Subject + \_\_\_\_\_ + Object

Pat is studying the lesson.

5

damit	kukunin	ang	Teri
cloth	will get		Teri

Kukunin ni Teri ang damit

Verb + Subject + \_\_\_\_\_ + Object

Teri will get the cloth.

# Knowledge Check

## Answer key: Lesson 7

**Direction:** Choose the appropriate verb in a given sentence. Tip; look at the pronoun or the name marker used in the sentence.

**Example are given below**

Rose will read the novel.

<b>Babasahin</b>	ni	Rosa	ang	nobela
will read		Rose		novel

Start learning Tagalog language today and start impressing your Filipino family and loved ones with this new skills!

## About the Author

Mabel De Leon is a Tagalog Native Speaker.

She is a full-time Licensed Professional Teacher in one of the Public Schools in the Philippines.

And a Freelance Tagalog Coach for almost eight (8) years.

She is also an enthusiast for learning foreign languages. That is why she knows how it feels to learn a new language.

Most of the students' feedback about her teaching method are "very informative" and "the presentations are easy to understand."

In teaching, the most important thing for her is to make her students feel comfortable and interested in the language they are learning.
